

# Context Changes Everything

## How Constraints Create Coherence

Alicia Juarrero

The MIT Press  
Cambridge, Massachusetts  
London, England

# Contents

## I

- 1 **What Went Wrong? The Backstory** 3
  - Types, Kinds, and Essences 5
  - Primary and Secondary (Accidental) Properties 6
  - Interactions and Relations 10
  - Efficient Causality 13
  - Mereology 15
  - Physical Causal Closure and Overdetermination 16
- 2 **The Path Forward** 21

## II

- 3 **Constraints: An Introduction** 35
  - What Are Constraints? 40
  - Spatial and Temporal Constraints 41
- 4 **Context-Independent Constraints** 49
  - Containers of Gas and Landscape Design 50
  - Vague and Ambiguous Constraints 54
  - Limited Message Variety 56
- 5 **Why Context Matters—An Interlude** 59
  - Science 2.0 and Medicine 2.0 Are All about Context  
Dependence 59
  - The Indirect Effects of Context 62

- 6 **Context-Dependent Constraints** 67
  - Enabling and Constitutive/Governing Constraints 71
  - Temporal Constraints 73
  - Cardinality and Indexicality, Ordinality and Placement 75
  - Top-Down (Governing) Context-Dependent Constraints 79
  - Coordination Dynamics Satisfy Second Law 84
- 7 **Catalysts, Loops, and Closure** 87
  - Catalysts and Feedback Loops 87
  - Closure of Processes (Catalytic Closure) 90
  - Autocatalytic Closure 90
  - Constraint Closure 93
  - Statistical and Semantic Closure 96
  - Semantic Attractors 99
- 8 **An Abundance of Constraints** 103
  - Repetition 104
  - Replication 105
  - Reproduction 107
  - Unity of Type in Species, Demes, and Memes 109
  - Density, Isolation, and Buffers 111
  - Isolation 112
  - Buffers and Other Shields 115
  - Motility and Migration—The Relaxation of Constraints 117
  - Templates, Frameworks, Scaffolds, and Affordances 120
  - Scaffolding 122
  - Types of Scaffolds 124
- 9 **Persistence—Delaying the Second Law** 129
  - Persistence and Thermodynamics 130
  - The Principle of Persistence 135
  - Selection by Persistence 139
- 10 **Sedimentation and Entrenchment** 143
  - Sedimentation, Memory, Records, and Registers 143
  - Entrenchment 145
  - Varieties of Entrenchment 148
  - Generative Entrenchment 151
  - Generative Entrenchment of Validated Constraints 153
