Figures

0.1	Participants at the 2018 workshop on Viking Camps prepare to set out on the river Ulla in Galicia, Spain	2
3.1	Repton on the River Trent	67
3.2	Repton 873–4: the Viking ditched enclosure at Repton church and the site of the Viking winter camp at Foremark	68
3.3	Repton Church: the pillars of the crypt looking south-west	70
3.4	Repton church and vicarage garden from the air, looking southeast, with the line of the Viking bank and ditch of 873 in white. The arrow indicates the Viking mound in the vicarage garden, topped by a tree	71
3.5	Repton church: Grave 511 (with sword) and Grave 295 (marked by a post in Feature 2334) covered by stone setting Feature 2310 which includes broken fragments of an Anglo-Saxon cross or crosses, RF 4812 and RF 4823	74
3.6	The Viking burial-mound in the vicarage garden looking north-east, as excavated 1986, its extent marked by a kerb of broken stones. The disturbed mass of human bones lies in the eastern compartment of a sunken two-celled Anglo-Saxon chapel	75
3.7	The Viking burial-mound in the vicarage garden, plan as excavated 1980–86, with possible sacrificial burials, later pre-conquest burials encroaching from the south-east, and disturbances by Walker (c. 1686), Gilbert (1787), and Cox (1914)	76
4.1	Map showing the location of the Viking winter camp of the mid- to late-870s at Aldwark in relation to York, with key Roman routeways	83
4.2	Map showing the location of the Viking winter camp(s) of AD 873–4 at Foremark and Repton, and the Viking cremation cemetery at Heath Wood	85
4.3	Reading. The Viking winter camp of AD 870–1 may have been on the peninsula of land which became the site of the medieval abbey, with the Anglo-Saxon town to the west	87

4.4	Lundenwic, Lundenburh and the possible site of the Viking winter camp of AD 871–2 on Thorney Island. 1. Royal Opera House site; 2. Westminster Abbey; 3. St. Paul's Cathedral; A. findspot of a possible gaming piece; B. likely site of Westminster Bridge hoard; C. findspot of Westminster sword	88
4.5	Nottingham, showing the location of the two early medieval enclosures which have been proposed from excavation of ditch sections, in relation to the later medieval town and castle. The Great Army overwintered here in AD 867–8. The star indicates the location of the two Viking burials found in 1851	90
4.6	Thetford, where the Viking Great Army spent the winter of AD 869–70, showing the extent of the late Saxon town and the approximate areas of known late Anglo-Saxon industrial activity (hatched), including pottery kilns which were concentrated on the western side of the town, with contemporary burial sites marked by crosses	92
5.1	The location of East Thirston	97
5.2a	Lidar (1m resolution) data displayed as a Digital Terrain Model overlaid onto 1:25,000 scale OS map, showing the locations of Roman, Anglo-Saxon and Viking-Age metal-detector finds recorded by the PAS	99
5.2b	Lidar data (1m resolution) showing the extent of the floodplain and the distribution of lead gaming pieces recorded by the PAS	99
5.3	The magnetic gradiometer data overlaid onto the First Revision OS map, showing the location of lead gaming pieces recorded by the PAS	100
5.4	Selection of Roman, Anglo-Saxon and Viking-Age metal-detector finds from East Thirston: a) Roman headstud brooch (NCL-512AFA); b) Denarius of Antonius Pious (NCL-E6B7C6); c) Anglo-Saxon belt mount (NCL-659C32); d) Merovingian <i>tremissis</i> (DUR-184009); e) Viking-Age lead gaming piece (NCL-7C3F94); f) Trewhiddle-style strap-end (NCL-781B67); g) Copper-alloy styca of irregular type (NCL-4E6B72); h) Glass inset lead weight (DUR-8BB722). <i>Scale:</i> Images (d) and (g) 2:1.
