List of Contributors page vii

Preface ix

Part I Networks in Biology 1

1 An Introduction to Biological Networks 3

Nuria Planell, Xabier Martinez de Morentin and David Gomez-Cabrero

2 Graph Theory 18

Akram Dehnokhalaji and Nasim Nasrabadi

Part II Network Analysis 33

3 Structural Analysis of Biological Networks 35

Narsis A. Kiani and Mikko Kivelä

4 Networks from an Information-Theoretic and Algorithmic Complexity Perspective 56

Hector Zenil and Narsis A. Kiani

5 Integration and Feature Identification in Multi-layer Networks using a Heat Diffusion Approach 71

Gordon Ball and Jesper Tegnér

Part III Multi-layer Networks 83

6 Multiplex Networks 85

Ginestra Bianconi

7 Existing Tools for Analysis of Multi-layer Networks 105

Massimo Stella and Manlio De Domenico

8 Dynamics on Multi-layer Networks 121

Manlio De Domenico and Massimo Stella

Part IV Applications 145

9 The Network of Networks Involved in Human Disease 147

Celine Sin and Jörg Menche

10 Towards a Multi-layer Network Analysis of Disease: Challenges and Opportunities Through the Lens of Multiple Sclerosis 172

Jesper Tegnér, Ingrid Kockum, Mika Gustafsson and
David Gomez-Cabrero

11 Microbiome: A Multi-layer Network View is Required 183

Rodrigo Bacigalupe, Saeed Shoaie and David Gomez-Cabrero

Part V Conclusion 195

12 Concluding Remarks: Open Questions and Challenges 197

Ginestra Bianconi, David Gomez-Cabrero, Jesper Tegnér
and Narsis A. Kiani

Index 201
