# DETAILED CONTENTS

---

<b>Preface</b>	<b>xix</b>
<b>About the Authors</b>	<b>xxv</b>
<b>PART I • PREPARING FOR DATA ANALYSIS</b>	<b>1</b>
<b>Chapter 1 • Introduction: The Theory and Practice of Social Research</b>	<b>3</b>
Overview	3
Why Use a Database?	4
SPSS Statistics	4
Social Research: A Primer	5
Concepts and Theories: Deprivation Theory	5
Variables and Hypotheses: Religiosity	6
Social Research Strategies: Inductive and Deductive	8
Theory and Research in Practice	9
<b>Example 1: Political Orientations</b>	<b>9</b>
<b>Example 2: Attitudes Toward Abortion</b>	<b>10</b>
Conclusion	10
Main Points	11
Key Terms	11
Review Questions	12
Notes	12
<b>Chapter 2 • The Logic of Measurement</b>	<b>15</b>
Validity Problems	15
Reliability Problems	16
Distinguishing Between Validity and Reliability	17
Multiple Indicators	17
Levels of Measurement	18
<b>Nominal Variables</b>	<b>18</b>
<b>Ordinal Variables</b>	<b>18</b>
<b>Ratio Variables</b>	<b>19</b>
<b>Interval Variables</b>	<b>19</b>
Measurement and Information	19
Measurement Options	20
Classifying Variables as Discrete or Continuous	20
Conclusion	21
Main Points	22
Key Terms	22
Review Questions	22
Note	23

<b>Chapter 3 • Description of Data Sets: The General Social Survey</b>	<b>25</b>
Sampling	26
Data Collection	27
The Codebook: Appendix A	27
<b>Data Set 1: ADVENTURES.SAV</b>	<b>28</b>
<b>Data Set 2: STUDENTS.SAV</b>	<b>28</b>
<b>Data Set 3: GSS2018.SAV</b>	<b>28</b>
Conclusion	28
Main Points	28
Key Terms	28
Review Questions	29
Notes	29
<b>PART II • UNIVARIATE ANALYSIS</b>	<b>31</b>
<b>Chapter 4 • Using SPSS Statistics: Some Basics</b>	<b>33</b>
Demonstration 4.1: Starting an SPSS Statistics Session	33
<i>SPSS Statistics Command 4.1: Starting an SPSS Statistics Session</i>	33
Demonstration 4.2: Exploring the Data View Portion of the Data Editor	35
<b>Menu Bar</b>	<b>35</b>
<b>Getting Help</b>	<b>36</b>
<i>SPSS Statistics Command 4.2: Accessing the Help Menu</i>	37
<b>Toolbar</b>	<b>37</b>
<b>Dialog Boxes</b>	<b>37</b>
<i>SPSS Statistics Command 4.3: Getting Help in a Dialog Box</i>	38
<b>Scroll Bars: Moving Through the Data Editor</b>	<b>38</b>
<i>SPSS Statistics Command 4.4: Moving Through the Data Screen</i>	39
Demonstration 4.3: Entering Data—a Preview	39
Demonstration 4.4: Loading a Data Set	40
<i>SPSS Statistics Command 4.5: Opening a Data File</i>	41
Demonstration 4.5: Raw Data in Data View	42
Finding Variable Information: Values and Labels	42
<b>Option 1: Variables Dialog Box</b>	<b>43</b>
<b>Option 2: Toggling Between Numeric Values and Value Labels</b>	<b>44</b>
<b>Option 3: Value Labels Tool</b>	<b>44</b>
<i>SPSS Statistics Command 4.6: Finding Information on Variables</i>	45
Demonstration 4.6: Variable View Tab	45
<i>SPSS Statistics Command 4.7: Finding Information on Variables in Variable View</i>	47
Demonstration 4.7: Ending Your SPSS Statistics Session	47
<i>SPSS Statistics Command 4.8: Ending Your SPSS Statistics Session</i>	47
Conclusion	47
Main Points	48
Key Terms	48
SPSS Statistics Commands Introduced in This Chapter	48
Review Questions	48
SPSS Statistics Lab Exercise 4.1	49
Notes	50
<b>Chapter 5 • Describing Your Data: Religiosity</b>	<b>51</b>
Demonstration 5.1: Opening Frequently Used Data Files	51
<i>SPSS Statistics Command 5.1: Shortcut for Opening Frequently Used Data Files</i>	52

Demonstration 5.2: Setting Options—Variable Lists and Output Labels	52
<i>SPSS Statistics Command 5.2: Setting Options—Displaying Abbreviated Variable Names Alphabetically</i>	53
<i>SPSS Statistics Command 5.3: Setting Options—Output Labels</i>	54
<i>SPSS Statistics Command 5.4: Setting Values and Labels as “Missing”</i>	56
Demonstration 5.3: Frequency Distributions	56
<i>SPSS Statistics Command 5.5: Running Frequency Distributions</i>	57
<b>The SPSS Statistics Viewer: Output</b>	<b>58</b>
<i>SPSS Statistics Command 5.6: Navigating Through the SPSS Statistics Viewer</i>	59
<i>SPSS Statistics Command 5.7: Changing the Width of the Outline Pane</i>	59
<b>Hiding and Displaying Results in the Viewer</b>	<b>59</b>
<i>SPSS Statistics Command 5.8: Hiding and Displaying Results in the Viewer</i>	59
<i>SPSS Statistics Command 5.9: Hiding and Displaying All Results From a Procedure</i>	60
<b>Reading Frequency Distributions</b>	<b>60</b>
Demonstration 5.4: Frequency Distributions—Running Two or More Variables at One Time	61
<i>SPSS Statistics Command 5.10: Running Frequency Distributions With Two or More Variables</i>	62
• <b>WRITING BOX 5.1</b>	<b>64</b>
Descriptive Statistics: Basic Measures of Central Tendency and Dispersion	65
Demonstration 5.5: The Frequencies Procedure	67
<i>SPSS Statistics Command 5.11: The Frequencies Procedure—Descriptive Statistics (Discrete Variables)</i>	69
Demonstration 5.6: The Descriptives Procedure—Calculating Descriptive Statistics for Continuous Variables	69
<i>SPSS Statistics Command 5.12: The Descriptives Procedure—Descriptive Statistics (Continuous Variables)</i>	71
Demonstration 5.7: Printing Your Output (Viewer)	71
<i>SPSS Statistics Command 5.13: Printing Your Output (Viewer)</i>	71
<i>SPSS Statistics Command 5.14: Print Preview</i>	72
Demonstration 5.8: Adding Headers/Footers and Titles/Text	72
<i>SPSS Statistics Command 5.15: Adding Headers and Footers</i>	72
<i>SPSS Statistics Command 5.16: Adding Titles or Text</i>	72
Demonstration 5.9: Saving Your Output (Viewer)	73
<i>SPSS Statistics Command 5.17: Saving Your Output (Viewer)</i>	73
Demonstration 5.10: Saving Changes to Your Data Set	73
<i>SPSS Statistics Command 5.18: Saving Changes Made to an Existing Data Set</i>	74
Conclusion	74
Main Points	75
Key Terms	75
SPSS Statistics Commands Introduced in This Chapter	75
Review Questions	76
SPSS Statistics Lab Exercise 5.1	77
Notes	79
<b>Chapter 6 • Presenting Your Data in Graphic Form: Political Orientations</b>	<b>81</b>
Graphing Data With Direct “Legacy” Dialogs	81
Demonstration 6.1: Frequency Table—POLVIEWS	82
<b>Bar Chart: POLVIEWS</b>	<b>83</b>
<i>SPSS Statistics Command 6.1: Simple Bar Chart</i>	85
Demonstration 6.2: SPSS Statistics Chart Editor	85
<i>SPSS Statistics Command 6.2: SPSS Statistics Chart Editor</i>	87

Demonstration 6.3: Frequency Table—PARTYID	87
<b>Pie Chart: PARTYID</b>	<b>88</b>
<i>SPSS Statistics Command 6.3: Pie Chart</i>	90
<i>SPSS Statistics Command 6.4: Accessing Pie Options (SPSS Statistics Chart Editor)</i>	91
Demonstration 6.4: Political Attitudes	92
• <b>WRITING BOX 6.1</b>	<b>93</b>
Demonstration 6.5: Histogram—AGE	93
<i>SPSS Statistics Command 6.5: Histogram</i>	94
Demonstration 6.6: Line Chart—INCOME	94
<i>SPSS Statistics Command 6.6: Simple Line Chart</i>	96
<b>Some Guidelines for Choosing a Chart or Graph</b>	<b>97</b>
Saving and Printing Your Charts	97
Conclusion	97
Main Points	98
Key Terms	98
SPSS Statistics Commands Introduced in This Chapter	98
Review Questions	98
SPSS Statistics Lab Exercise 6.1	99
<b>Chapter 7 • Recoding Your Data: Religiosity and Political Orientations</b>	<b>101</b>
Demonstration 7.1: Modifying Variables With Recode—ATTEND → CHATT	101
<b>Summary of Steps Involved in Recoding</b>	<b>109</b>
Demonstration 7.2: Recoding AGE → AGECAT	110
• <b>WRITING BOX 7.1</b>	<b>113</b>
<i>SPSS Statistics Command 7.1: Recoding a Variable</i>	113
Demonstration 7.3: Recoding POLVIEWS → POLREC	113
Demonstration 7.4: Recoding PARTYID → PARTY	115
• <b>WRITING BOX 7.2</b>	<b>118</b>
Demonstration 7.5: Saving Changes to Your Data Set	118
<i>SPSS Statistics Command 7.2: Saving Changes Made to an Existing Data Set</i>	118
Conclusion	118
Main Points	119
Key Term	119
SPSS Statistics Commands Introduced in This Chapter	119
Review Questions	119
SPSS Statistics Lab Exercise 7.1	120
Notes	123
<b>Chapter 8 • Creating Composite Measures: Exploring Attitudes Toward Abortion in More Depth</b>	<b>125</b>
Demonstration 8.1: Identifying the Seven Abortion Variables—File Info	125
<i>SPSS Statistics Command 8.1: Identifying Variables—File Info</i>	126
Demonstration 8.2: Running Frequencies for Several Variables at Once	126
<i>SPSS Statistics Command 8.2: Running Frequencies for Several Variables (Not Clustered)</i>	126
<b>Items With the Highest Levels of Support</b>	<b>127</b>
<b>Items With Less Support</b>	<b>128</b>
<b>Unconditional Support for Abortion</b>	<b>129</b>
<b>Support for Abortion: An Overview</b>	<b>129</b>
Index: A Form of Composite Measure	130
<b>ABORT Index</b>	<b>130</b>
<b>ABORT Index Scores</b>	<b>131</b>

Demonstration 8.3: ABORT Index	131
Demonstration 8.4: Defining ABORT	134
Demonstration 8.5: Checking New Index—Comparing Scores on Old and New Variables	135
Demonstration 8.6: Running Frequencies for ABORT	136
<i>SPSS Statistics Command 8.3: Creating a Simple Index Using Count</i>	136
<b>ABINDEX: Index Based on Six Abortion Variables</b>	<b>137</b>
Demonstration 8.7: ABINDEX	137
Demonstration 8.8: Running Frequencies	139
• <b>WRITING BOX 8.1:</b> Description of ABINDEX	140
Conclusion	140
Main Points	141
Key Terms	141
SPSS Statistics Commands Introduced in This Chapter	141
Review Questions	141
SPSS Statistics Lab Exercise 8.1	142
Notes	144
<b>Chapter 9 • Suggestions for Further Analysis</b>	<b>145</b>
Desired Family Size	145
Demonstration 9.1: Respondents' Ideal Family Size (CHLDIDEL)	146
• <b>WRITING BOX 9.1</b>	<b>147</b>
Child-Rearing	147
Demonstration 9.2: Important Qualities for Children	147
• <b>WRITING BOX 9.2</b>	<b>149</b>
Attitudes About Sexual Behavior	149
Demonstration 9.3: Index of Sexual Permissiveness	150
<i>SPSS Statistics Command 9.1: Setting Values and Labels as "Missing" Using "Range Plus One" Option</i>	150
• <b>WRITING BOX 9.3:</b> Description of SEXPERM Index	153
Prejudice	153
• <b>WRITING BOX 9.4</b>	<b>155</b>
Conclusion	155
Main Points	156
Key Term	156
SPSS Statistics Command Introduced in This Chapter	156
Review Questions	156
SPSS Statistics Lab Exercise 9.1	157
Notes	158
<b>PART III • BIVARIATE ANALYSIS</b>	<b>159</b>
<b>Chapter 10 • Examining the Sources of Religiosity</b>	<b>161</b>
The Deprivation Theory of Religiosity	161
Testing Our Hypothesis: Correlating Religiosity and Gender	162
Demonstration 10.1: Running Crosstabs to Test Our Hypothesis	162
<b>Examining Your Output</b>	<b>165</b>
<i>SPSS Statistics Command 10.1: Running Crosstabs—Specifying the Dependent and Independent Variables</i>	166

<b>Interpreting Crosstabs</b>	<b>166</b>
<b>Interpreting Crosstabs: Association, Strength, and Direction</b>	<b>166</b>
Demonstration 10.2: Interpreting a Crosstab With Limited Categories	166
<b>First Question: Is There an Association?</b>	<b>167</b>
<b>Second Question: How Strong Is the Association?</b>	<b>167</b>
Demonstration 10.3: Correlating Another Measure of Religiosity and Gender	168
• <b>WRITING BOX 10.1</b>	<b>169</b>
Drawing Conclusions Carefully: Reassessing Our Original Hypothesis	169
Demonstration 10.4: Interpreting a Crosstab With Ordinal Variables—Religiosity and Age	169
<b>Interpreting Crosstabs With Ordinal Variables</b>	<b>170</b>
<b>Examining Your Output</b>	<b>171</b>
Demonstration 10.5: Correlating Other Measures of Religiosity and Age	171
• <b>WRITING BOX 10.2</b>	<b>173</b>
<b>Epsilon</b>	<b>173</b>
Conclusion	173
Main Points	174
Key Terms	174
SPSS Statistics Command Introduced in This Chapter	175
Review Questions	175
SPSS Statistics Lab Exercise 10.1	176
Notes	179
<b>Chapter 11 • Political Orientations as Cause and Effect</b>	<b>181</b>
The Relationship Between POLVIEWS and PARTYID	181
Demonstration 11.1: POLREC by PARTY	182
Demonstration 11.2: PARTY by POLREC	182
<b>Age and Politics</b>	<b>183</b>
Demonstration 11.3: POLREC by AGE CAT	183
Demonstration 11.4: PARTY by AGE CAT	184
<b>Interpreting Your Table: The Relationship Between Age and Party Identification</b>	<b>184</b>
<b>Religion and Politics</b>	<b>185</b>
Demonstration 11.5: POLREC by RELIG	185
Demonstration 11.6: PARTY by RELIG	186
<b>Gender and Politics</b>	<b>187</b>
Demonstration 11.7: PARTY and POLREC by SEX	187
<b>Race and Politics</b>	<b>188</b>
Demonstration 11.8: POLREC by RACE	188
Demonstration 11.9: PARTY by RACE	189
<b>Education and Politics</b>	<b>189</b>
Demonstration 11.10: Recoding EDUC → EDCAT	189
Demonstration 11.11: POLREC by EDCAT	191
Demonstration 11.12: PARTY by EDCAT	192
Some Surprises: Class, Marital Status, and Politics	193
<b>Social Class</b>	<b>193</b>
<b>Marital Status</b>	<b>194</b>
The Impact of Party and Political Philosophy	194
Saving Recoded Variable: EDCAT	194
Conclusion	194
Main Points	194
Key Terms	195

SPSS Statistics Commands Introduced in This Chapter	195
Review Questions	195
SPSS Statistics Lab Exercise 11.1	196
Notes	198
<b>Chapter 12 • What Causes Different Attitudes Toward Abortion?</b>	<b>199</b>
Demonstration 12.1: Gender and Abortion	199
Demonstration 12.2: Age and Abortion	200
Demonstration 12.3: Religion and Abortion	202
• <b>WRITING BOX 12.1</b>	<b>204</b>
Demonstration 12.4: Politics and Abortion	204
• <b>WRITING BOX 12.2</b>	<b>206</b>
Demonstration 12.5: Sexual Attitudes and Abortion	206
Other Factors You Can Explore on Your Own	208
Conclusion	208
Main Points	209
Key Terms	209
SPSS Statistics Commands Introduced in This Chapter	209
Review Questions	209
SPSS Statistics Lab Exercise 12.1	210
Notes	214
<b>Chapter 13 • Measures of Association for Nominal and Ordinal Variables</b>	<b>215</b>
The Logic of Statistical Association: Proportionate Reduction of Error	215
Lambda ( $\lambda$ ): A Measure Appropriate for Nominal Variables	216
<b>An Indication of Strength of Association</b>	<b>216</b>
<b>Example 1: The Logic of Lambda (<math>\lambda</math>)</b>	<b>216</b>
<b>Example 2: The Logic of Lambda (<math>\lambda</math>)</b>	<b>217</b>
Demonstration 13.1: Instructing SPSS Statistics to Calculate Lambda ( $\lambda$ )	218
Interpreting Lambda and Other Measures	220
<b>Caveat: Interpreting Lambdas of 0.00</b>	<b>221</b>
• <b>WRITING BOX 13.1</b>	<b>222</b>
<i>SPSS Statistics Command 13.1: Running Crosstabs With Lambda (<math>\lambda</math>)</i>	222
Gamma ( $\gamma$ ): A Measure Appropriate for Ordinal Variables	222
<b>An Indication of Strength and Direction (With a Caveat) of Association</b>	<b>222</b>
<b>Example 1: The Logic of Gamma (<math>\gamma</math>)</b>	<b>224</b>
<b>Example 2: The Logic of Gamma (<math>\gamma</math>)</b>	<b>227</b>
Demonstration 13.2: Instructing SPSS Statistics to Calculate Gamma ( $\gamma$ )—Example 1	228
• <b>WRITING BOX 13.2</b>	<b>230</b>
Demonstration 13.3: Running Gamma ( $\gamma$ )—Example 2 (Reverse Scoring Case)	230
<i>SPSS Statistics Command 13.2: Running Crosstabs With Gamma (<math>\gamma</math>)</i>	233
Additional Measures of Association	233
Analyzing the Association Between Variables at Different Levels of Measurement	234
Conclusion	234
Main Points	234
Key Terms	235
SPSS Statistics Commands Introduced in This Chapter	235
Review Questions	235
SPSS Statistics Lab Exercise 13.1	236
Notes	238

<b>Chapter 14 • Correlation and Regression Analysis</b>	<b>241</b>
Pearson's $r$ : A Measure Appropriate for Interval/Ratio Variables	241
<b>An Indication of Strength and Direction of Association</b>	<b>241</b>
<b>Example 1: The Logic of Pearson's <math>r</math></b>	<b>241</b>
Interpreting Pearson's $r$ and the Coefficient of Determination ( $r^2$ )	245
Instructing SPSS Statistics to Calculate Pearson's $r$	246
Demonstration 14.1: Recoding RINCOM16 → RECINC	246
Demonstration 14.2: Using SPSS Statistics to Compute Pearson's $r$	250
<i>SPSS Statistics Command 14.1: Producing a Correlation Matrix With Pearson's <math>r</math></i>	252
Demonstration 14.3: Requesting Several Correlation Coefficients	252
• <b>WRITING BOX 14.1</b>	<b>254</b>
<b>A Note of Caution</b>	<b>254</b>
Regression Analysis	255
<b>Example 1: The Logic of Regression</b>	<b>255</b>
Demonstration 14.4: Regression	256
<i>SPSS Statistics Command 14.2: Regression</i>	259
Demonstration 14.5: Presenting Data Graphically—Producing a Scatterplot With a Regression Line	259
<b>An Indication of Direction and Strength of Association</b>	<b>262</b>
• <b>WRITING BOX 14.2</b>	<b>263</b>
<i>SPSS Statistics Command 14.3: Producing a Scatterplot With a Regression Line</i>	263
Measures of Association for Interval and Ratio Variables	263
Analyzing the Association Between Variables at Different Levels of Measurement	264
Conclusion	264
Main Points	264
Key Terms	265
SPSS Statistics Commands Introduced in This Chapter	265
Review Questions	265
SPSS Statistics Lab Exercise 14.1	266
Notes	267
<b>Chapter 15 • Tests of Significance</b>	<b>269</b>
Statistical Significance	269
Significance Tests: Part of the Larger Body of Inferential Statistics	269
Statistical Significance Versus Measures of Association	270
Chi-Square ( $\chi^2$ )	270
<b>The Logic of Statistical Significance: Chi-Square (<math>\chi^2</math>)</b>	<b>270</b>
Demonstration 15.1: Instructing SPSS Statistics to Calculate Chi-Square	274
<b>Reading Your Output</b>	<b>275</b>
<i>SPSS Statistics Command 15.1: Producing Crosstabs With Chi-Square</i>	276
<b>Practice Running Chi-Square</b>	<b>276</b>
• <b>WRITING BOX 15.1</b>	<b>276</b>
Significance and Association	276
<b><math>t</math> Tests</b>	<b>277</b>
Demonstration 15.2: Instructing SPSS Statistics to Run Independent-Samples $t$ Test	279
<b>Reading Your Output</b>	<b>281</b>
<i>SPSS Statistics Command 15.2: Running <math>t</math> Test (Independent-Samples <math>t</math> Test)</i>	281
Demonstration 15.3: $t$ Test—EDUC by SEX	281
Analysis of Variance	283

Demonstration 15.4: Instructing SPSS Statistics to Run ANOVA	283
<b>Reading Your Output</b>	<b>283</b>
<i>SPSS Statistics Command 15.3: ANOVA (GLM Univariate)</i>	285
• <b>WRITING BOX 15.2</b>	<b>286</b>
A Statistical Toolbox: A Summary	286
Conclusion	286
Main Points	287
Key Terms	288
SPSS Statistics Commands Introduced in This Chapter	288
Review Questions	288
SPSS Statistics Lab Exercise 15.1	289
Notes	291
<b>Chapter 16 • Suggestions for Further Bivariate Analyses</b>	<b>293</b>
Demonstration 16.1: Desired Family Size	293
• <b>WRITING BOX 16.1</b>	<b>295</b>
Child-Rearing	295
Attitudes About Sexual Behavior	296
Demonstration 16.2: Investigating Sexual Permissiveness Further	296
• <b>WRITING BOX 16.2</b>	<b>296</b>
<b>Prejudice</b>	<b>296</b>
Additional Resources	297
Conclusion	297
Main Points	298
Key Terms	298
SPSS Statistics Commands Introduced in This Chapter	298
Review Questions	298
SPSS Statistics Lab Exercise 16.1	299
Note	301
<b>PART IV • MULTIVARIATE ANALYSIS</b>	<b>303</b>
<b>Chapter 17 • Multiple Causation: Examining Religiosity in Greater Depth</b>	<b>305</b>
Multiple Causation	305
Demonstration 17.1: The Impact of Age and Sex on Religiosity	305
<i>SPSS Statistics Command 17.1: Running Crosstabs With a Control or Third Variable</i>	309
Demonstration 17.2: Family Status and Religiosity	309
Demonstration 17.3: Family Status and Religiosity, Controlling for Age	311
Demonstration 17.4: Social Class and Religiosity	312
• <b>WRITING BOX 17.1</b>	<b>313</b>
Other Variables to Explore	314
Chi-Square and Measures of Association	314
<b>Chi-Square (<math>\chi^2</math>)</b>	<b>314</b>
<b>Measures of Association</b>	<b>314</b>
<b>Multiple Regression</b>	<b>314</b>
<b>Dummy Variables</b>	<b>315</b>
<b>Recoding SEX to Create a Dummy Variable: MALE</b>	<b>315</b>
<b>Recoding RACE to Create a Dummy Variable: WHITE</b>	<b>316</b>
<i>SPSS Statistics Command 17.2: Recoding to Create a Dummy Variable</i>	318
Multiple Regression	318
<i>SPSS Statistics Command 17.3: Multiple Regression</i>	320

Conclusion	320
Main Points	321
Key Terms	321
SPSS Statistics Commands Introduced in This Chapter	321
Review Questions	321

Notes	336
<b>Chapter 19 • A Powerful Prediction of Attitudes Toward Abortion</b>	<b>337</b>
Religion and Abortion	337
Demonstration 19.1: Religious Affiliation and Church Attendance	337
Demonstration 19.2: Religious Affiliation, Church Attendance, and Abortion	339
<b>Recoding RELIG and ATTEND Into Different Variables</b>	<b>340</b>
<i>SPSS Statistics Command 19.1: Recoding Into Different Variables</i>	340
<b>Crosstab Recoded Variables</b>	<b>342</b>
<b>Relationship Between ABORT and Recoded Items</b>	<b>343</b>
Politics (POLREC, PARTY) and Abortion (ABORT)	344
Demonstration 19.3: The Interaction of Religion and Politics on Abortion Attitudes	345
Demonstration 19.4: Constructing an Index of Ideological Traditionalism	346
<b>Step 1: Create IND</b>	<b>347</b>
<b>Step 2: Assign Points—If Liberal (1) on POLREC, Get Two Points on IND</b>	<b>347</b>
<b>Step 3: Assign Points—If Moderate (2) on POLREC, Get One Point on IND</b>	<b>348</b>
<b>Step 4: Assign Points—If None (2) on RELIG2, Get One Point on IND</b>	<b>348</b>
<b>Step 5: Assign Points—If Seldom (2) on ATTEND2, Get One Point on IND</b>	<b>348</b>
<b>Step 6: Handle Missing Data</b>	<b>349</b>
<b>Step 7: Define IND</b>	<b>350</b>
<i>SPSS Statistics Command 19.2: Creating an Index Using Compute Variable</i>	351
<b>Run Frequencies to Check IND</b>	<b>352</b>
<b>Does IND Predict Attitudes Toward Abortion?</b>	<b>352</b>
Sexual Attitudes and Abortion	352

Demonstration 19.5: Recode PREMARSX and HOMOSEX	353
• <b>WRITING BOX 19.1</b>	<b>355</b>
Demonstration 19.6: The Relationship Between Sexual Permissiveness and IND	355
Conclusion	355

Notes	371
<b>PART V • THE ADVENTURE CONTINUES</b>	<b>373</b>
<b>Chapter 21 • Designing and Executing Your Own Survey</b>	<b>375</b>
The Social Research Process and Proposal	375
Designing and Executing Your Own Survey	376
<b>Sample Questionnaire</b>	<b>376</b>
Getting Ready for Data Analysis Using SPSS Statistics	377
Step 1: Define Your Data	377
Demonstration 21.1: Example 1—Defining ID	377
<b>Variable Names</b>	<b>378</b>
<b>Type</b>	<b>378</b>
<b>Decimal</b>	<b>379</b>
<b>Width</b>	<b>379</b>
<b>Label</b>	<b>380</b>
<b>Values</b>	<b>380</b>
<b>Missing</b>	<b>380</b>
<b>Columns and Align</b>	<b>381</b>
<b>Measure</b>	<b>381</b>
Demonstration 21.2: Example 2—Defining CHLDIDEL	382
<i>SPSS Statistics Command 21.1: Defining a Variable</i>	383
<b>Copying Variables With Shared Attributes: Abortion Variables</b>	<b>383</b>
Demonstration 21.3: Copying a Variable	384
<i>SPSS Statistics Command 21.2: Copying a Variable</i>	385

Demonstration 21.4: Saving Your New File	386
<i>SPSS Statistics Command 21.3: Saving a New Data File</i>	386
<b>LOCAL.SAV</b>	<b>386</b>
Step 2: Edit and Code Your Data	387
<b>Unique ID Number</b>	<b>387</b>
<b>Coding Open-Ended Questions</b>	<b>387</b>
<b>Ensuring That Codes Are Easy to Read</b>	<b>387</b>
<b>Editing Questionnaires</b>	<b>387</b>
Demonstration 21.5: Accessing File Information for Coding and Editing	388
<i>SPSS Statistics Command 21.4: Accessing File Information for Coding and Editing</i>	388
Step 3: Enter Your Raw Data	388
Demonstration 21.6: Moving Through Data View	388
<i>SPSS Statistics Command 21.5: Some Tips for Moving Through Data View</i>	389
Demonstration 21.7: Entering Data	389
<i>SPSS Statistics Command 21.6: Entering Numeric Data</i>	389
Demonstration 21.8: Revising or Deleting Data	389
<i>SPSS Statistics Command 21.7: Deleting an Entire Case</i>	389
Demonstration 21.9: Saving Your Data File	390
Writing a Research Report	390
Conclusion	390
Main Points	390
Key Terms	391
SPSS Statistics Commands Introduced in This Chapter	391
Review Questions	391
