

Table of Content

Abstract.....	V
List of Figures.....	VII
List of Tables.....	IX
List of Abbreviations.....	XI
1. Introduction.....	1
1.1. Problem Analysis.....	1
1.2. Objectives and Research Questions.....	2
1.3. Research Methodology.....	3
2. Aviation Industry and Climate Change.....	5
3. Airlines' Measures to Tackle Climate Change.....	11
3.1. New Aircraft Technologies and Sustainable Aviation Fuels.....	12
3.2. Offsetting Programs.....	16
4. Pro-Environmental Behavior.....	19
4.1. General Pro-Environmental Behavior.....	19
4.2. Pro-Environmental Behavior in Aviation.....	21
4.3. Factors Influencing Pro-Environmental Behavior.....	22
4.4. Attitude-Behavior-Gap.....	31
5. Willingness to Pay for Greener Flights.....	35
6. Compulsory Regulations.....	37
6.1. International Regulations in the Aviation Industry.....	37
6.2. Noncompliance with International Regulations.....	39
6.3. Future International Regulations.....	40
6.4. Challenges of International Regulations.....	41
7. Price Elasticity of Flight Tickets.....	43

8.	Aviation Industry and COVID-19	45
8.1.	Financial State’s Support and Predicted Price Wars	45
8.2.	Combination of Financial State’s Support and Environmental Policies.....	47
9.	Minimum Prices	49
10.	Taxation in the Aviation Industry	51
10.1.	Flight Tickets Taxes	52
10.2.	Flight Ticket Taxes in Selected Countries	54
10.3.	Carbon Tax on Flight Tickets in Switzerland	57
11.	Empirical Study	63
11.1.	Guided Expert Interviews	64
11.2.	Qualitative Content Analysis	65
11.3.	Evaluation of Results.....	67
12.	Reflection	79
12.1.	Recommendations.....	80
12.2.	Limitations and Future Research	81
