

中国沙漠图集

Atlas of Sandy Deserts in China

国家林业局

科学出版社

北京

Contents

Introductory Maps

Annual Precipitation in China	2
Annual Evaporation in China	4
Water Surplus and Deficit in China	8
The Number of Windy Days in China	8

Section One General Introduction to Chinese Deserts

1 Area and Distribution of Chinese Deserts	12
2 Natural Environment of Chinese Deserts	18
2.1 Deserts in the Extremely Arid Desert Zone	19
2.2 Deserts in the Arid Desert Zone	19
2.3 Deserts in the Arid Desert Steppe Zone	20
2.4 Deserts in the Arid Steppe Zone	20
2.5 Deserts in Forests and Grasslands	21
3 Distribution Characteristics and Patterns of Chinese Deserts	22
3.1 Distribution Characteristics of Chinese Deserts	22
3.2 Distribution Pattern of Chinese Deserts	26
4 Formation Times and Causes of Chinese Deserts	33
4.1 Formation Times of Chinese Deserts	33
4.2 Causes of Chinese Deserts	33
5 The Evolution of Chinese Deserts	34

Section Two Major Deserts

1 Taklimakan Desert	38
1.1 Geological Tectonics and Landforms	40
1.2 Sources of Desert Materials and Characteristics of Eolian Landforms	43
1.3 Natural Conditions in Deserts	45
1.4 The Evolution of Desert Environments	47
2 Kumtag Desert	48
2.1 Geological Tectonics and Landforms	50
2.2 Sources of Desert Materials and Characteristics of Eolian Landforms	52
2.3 Natural Conditions in Deserts	57
2.4 The Evolution of Desert Environments	57
3 Shanshan-Kumtag Desert	58
3.1 Geological Tectonics and Landforms	59
3.2 Sources of Desert Materials and Characteristics of Eolian Landforms	61
3.3 Natural Conditions in Deserts	62
3.4 The Evolution of Desert Environments	63
4 Deserts in the Qaidam Basin	64
4.1 Geological Tectonics and Landforms	65

4.2 Sources of Desert Materials and Characteristics of Eolian Landforms	66
4.3 Natural Conditions in Deserts.....	70
4.4 The Evolution of Desert Environments.....	71
5 Deserts in the Kumkol Basin	72
5.1 Geological Tectonics and Landforms	72
5.2 Sources of Desert Materials and Characteristics of Eolian Landforms	74
5.3 Natural Conditions in Deserts.....	76
5.4 The Evolution of Desert Environments.....	76
6 Gurbantunggut Desert	77
6.1 Geological Tectonics and Landforms	77
6.2 Sources of Desert Materials and Characteristics of Eolian Landforms	81
6.3 Natural Conditions in Deserts.....	84
6.4 The Evolution of Desert Environments.....	84
7 Badain Jaran Desert	86
7.1 Geological Tectonics and Landforms	86
7.2 Sources of Desert Materials and Characteristics of Eolian Landforms	88
7.3 Natural Conditions in Deserts.....	92
7.4 The Evolution of Desert Environments.....	93
8 Tengger Desert	94
8.1 Geological Tectonics and Landforms	94
8.2 Sources of Desert Materials and Characteristics of Eolian Landforms	97
8.3 Natural Conditions in Deserts.....	99
8.4 The Evolution of Desert Environments.....	101
9 Ulan Buh Desert	102
9.1 Geological Tectonics and Landforms	102
9.2 Sources of Desert Materials and Characteristics of Eolian Landforms	104
9.3 Natural Conditions in Deserts.....	106
9.4 The Evolution of Desert Environments.....	107
10 Hobq Desert.....	108
10.1 Geological Tectonics and Landforms	109
10.2 Sources of Desert Materials and Characteristics of Eolian Landforms	110
10.3 Natural Conditions in Deserts	112
10.4 The Evolution of Desert Environments	113
11 Deserts West of the Langshan Mountains	114
11.1 Geological Tectonics and Landforms	114
11.2 Sources of Desert Materials and Characteristics of Eolian Landforms	115
11.3 Natural Conditions in Deserts	117
11.4 The Evolution of Desert Environments	117

Section Three Major Sandy Lands

1 Gonghe Sandy Land	120
1.1 Geological Tectonics and Landforms	120

1.2 Sources of Desert Materials and Characteristics of Eolian Landforms	122
1.3 Natural Conditions in Sandy Land	124
1.4 The Evolution of Sandy Land Environments	124
2 Mu Us Sandy Land	125
2.1 Geological Tectonics and Landforms	125
2.2 Sources of Desert Materials and Characteristics of Eolian Landforms	126
2.3 Natural Conditions in Sandy Land	129
2.4 The Evolution of Sandy Land Environments	129
3 Hedong Sandy Land	130
3.1 Geological Tectonics and Landforms	130
3.2 Sources of Sandy Land Materials and Characteristics of Eolian Landforms	131
3.3 Natural Conditions in Sandy Land	132
3.4 The Evolution of Sandy Land Environments	132
4 Hunshandake Sandy Land	133
4.1 Geological Tectonics and Landforms	133
4.2 Sources of Sandy Land Materials and Characteristics of Eolian Landforms	134
4.3 Natural Conditions in Sandy Land	136
4.4 The Evolution of Sandy Land Environments	137
5 Ujimqin Sandy Land	138
5.1 Geological Tectonics and Landforms	138
5.2 Sources of Sandy Land Materials and Characteristics of Eolian Landforms	139
5.3 Natural Conditions in Sandy Land	141
5.4 The Evolution of Sandy Land Environments	141
6 Hulun Buir Sandy Land	142
6.1 Geological Tectonics and Landforms	142
6.2 Sources of Sandy Land Materials and Characteristics of Eolian Landforms	143
6.3 Natural Conditions in Sandy Land	144
6.4 The Evolution of Sandy Land Environments	145
7 Horqin Sandy Land	146
7.1 Geological Tectonics and Landforms	146
7.2 Sources of Sandy Land Materials and Characteristics of Eolian Landforms	147
7.3 Natural Conditions in Sandy Land	149
7.4 The Evolution of Sandy Land Environments	149

Section Four Sporadic Deserts and Sandy Lands

1 Sandy Lands within the Yarlung Zangbo River Valley	152
2 Sandy Lands around the Qinghai Lake	154
3 Akbar Desert	156
4 Sand Belts within the Middle Reaches of the Heihe River	157
5 Tacoma Desert	158
Main References	161
Appendix A Chinese–Latin Bilingual Table of Plant Species Names	162
