

# **Photo- and Electrocatalysis with Polymerised Water Reduction Catalysts**

**Dissertation**

**zur**

**Erlangung der naturwissenschaftlichen Doktorwürde  
(Dr. sc. nat.)**

**vorgelegt der**

**Mathematisch-naturwissenschaftlichen Fakultät**

**der**

**Universität Zürich**

**von**

**Franziska Rahn**

**von**

**Zürich ZH**

**Promotionskommission**

**Prof. Dr. Roger Alberto (Vorsitz)  
Prof. Dr. David Tilley  
Prof. Dr. Philipp Kurz**

**Zürich, 2022**

| I.    | Table of Contents.....  | 5  |
| II.   | Zusammenfassung.....  | 8  |
| III.  | Abstract.....   | 9  |
| IV.   | Acknowledgements.....   | 10 |
| V.    | Main Compounds.....   | 12 |
| VI.   | Abbreviations.....  | 14 |
| 1.    | Introduction.....   | 17 |
| 1.1   | Global Energy Demand.....   | 17 |
| 1.2   | Water Splitting.....  | 17 |
| 1.3   | Molecular Water Reduction Catalysts with Earth Abundant Elements..... | 18 |
| 1.3.1 | Strategies.....   | 18 |
| 1.3.2 | Catalysis with Polypyridyl Based Cobalt Containing WRCs.....          | 19 |
| 1.4   | Immobilisation of Molecular Catalysts.....                            | 20 |
| 1.4.1 | Polymers.....   | 21 |
| 1.4.2 | Devices.....  | 23 |
| 1.5   | Aim of the Project.....   | 25 |
| 2.    | Polymerised Photosensitisers.....                                     | 27 |
| 2.1   | Electropolymerisation of $[Ru(bipy)_2(4VP)_2](PF_6)_2$ .....          | 27 |
| 2.2   | Vinylpyridine Photosensitiser.....                                    | 28 |
| 2.3   | Vinyl Bipyridine Photosensitisers.....                                | 28 |
| 2.4   | Cobalt Bivinyl Bipyridine Derivates.....                              | 32 |
| 2.5   | Conclusion Polymerised Photosensitisers.....                          | 33 |
| 3.    | Polymerised Water Reduction Catalysts.....                            | 35 |
| 3.1   | Monomer Synthesis.....  | 35 |
| 3.1.1 | Vinyl-appyCo.....   | 35 |
| 3.1.2 | Th-appyCo.....  | 36 |
| 3.1.3 | SNS Building Blocks.....  | 36 |
| 3.1.4 | SNS-N2L-appyCo.....   | 38 |
| 3.1.5 | SNS-N1L-appyCo.....   | 38 |
| 3.1.6 | SNS-C1L-appyCo.....   | 39 |
| 3.1.7 | Conclusion Monomer Synthesis.....                                     | 39 |
| 3.2   | Cyclic Voltammetry Analysis.....                                      | 40 |

## I. Table of Contents

|       |  |     |
|-------|--|-----|
| 3.2.1 | Vinyl-appyCo .....   | 40  |
| 3.2.2 | Th-appyCo .....  | 42  |
| 3.2.3 | SNS-N2L-appyCo.....  | 43  |
| 3.2.4 | SNS-N1L-appyCo.....  | 44  |
| 3.2.5 | SNS-C1L-appyCo.....  | 45  |
| 3.2.6 | Conclusion Cyclic Voltammetry Analysis.....                        | 46  |
| 3.3   | Electropolymerisation and Electrocatalysis on RDE .....            | 47  |
| 3.3.1 | Vinyl-appyCo .....   | 47  |
| 3.3.2 | SOS .....  | 56  |
| 3.3.3 | Th-appyCo .....  | 57  |
| 3.3.4 | SNS-N2L-appyCo.....  | 59  |
| 3.3.5 | SNS-N1L-appyCo.....  | 60  |
| 3.3.6 | SNS-C1L-appyCo .....   | 62  |
| 3.3.7 | Conclusion Electropolymerisation and Electrocatalysis on RDE ..... | 63  |
| 3.4   | Polymerisation in Solution to Form Homopolymers .....              | 64  |
| 3.4.1 | Vinyl-appyCo and 4VP .....   | 64  |
| 3.4.2 | Th-appyCo .....  | 65  |
| 3.4.3 | SNS-C1L-appyCo .....   | 68  |
| 3.4.4 | SNS-N1L-appyCo.....  | 70  |
| 3.4.5 | Conclusion Polymerisation in Solution to Form Homopolymers .....   | 71  |
| 3.5   | Polymerisation to Form Copolymers.....                             | 71  |
| 3.5.1 | Vinyl-appyCo .....   | 72  |
| 3.5.2 | Th-appyCo .....  | 73  |
| 3.5.3 | Conclusion Polymerisation to Form Copolymers.....                  | 77  |
| 3.6   | Photocatalysis.....  | 77  |
| 3.6.1 | Vinyl-appyCo .....   | 78  |
| 3.6.2 | Copolymers with Vinyl-appyCo .....                                 | 79  |
| 3.6.3 | Th-appyCo and PTh-appyCo.....                                      | 81  |
| 3.6.4 | Copolymers with Th-appyCo.....                                     | 82  |
| 3.6.5 | SNS-N1L-appyCo and PSNS-N1L-appyCo .....                           | 83  |
| 3.6.6 | SNS-C1L-appyCo and PSNS-C1L-appyCo .....                           | 84  |
| 3.6.7 | Conclusion Photocatalysis.....                                     | 84  |
| 3.7   | PTh-appy on Surfaces .....   | 85  |
| 3.7.1 | Spin Coating on RDE and Electrocatalytic Water Splitting .....     | 85  |
| 3.7.2 | Preparation and Analysis of Plate Shaped Cathodes .....            | 90  |
| 3.7.3 | Electrocatalysis with Glass/ITO/PEDOT:PSS/PTh-appyCo:PSS .....     | 110 |

---

|       |   |     |
|-------|---|-----|
| 3.7.4 | Conclusion Water Reducing Polymers on Surfaces .....                                | 121 |
| 4.    | Photoelectrocatalysis with a Device Based on Organic Photovoltaics .....            | 123 |
| 4.1   | OPV Fabrication and Testing .....   | 123 |
| 4.2   | OPV with Catalysts .....  | 124 |
| 4.3   | Conclusion Photoelectrocatalysis with a Device Based on Organic Photovoltaics ..... | 128 |
| 5.    | Conclusion and Outlook.....   | 130 |
| 6.    | Experimental.....   | 133 |
| 6.1   | Chemicals and Solvents .....  | 133 |
| 6.2   | Devices.....  | 133 |
| 6.2.1 | At UZH .....  | 133 |
| 6.2.2 | At Empa .....   | 136 |
| 6.2.3 | External .....  | 136 |
| 6.3   | Synthesis.....  | 136 |
| 6.3.1 | Photosensitiser.....  | 136 |
| 6.3.2 | WRC General .....   | 139 |
| 6.3.3 | Vinyl-appy .....  | 140 |
| 6.3.4 | Polymerisation of Vinyls.....   | 142 |
| 6.3.5 | Th-appyCo .....   | 145 |
| 6.3.6 | Polymerisation of Th-appyCo.....  | 147 |
| 6.3.7 | SNS-Derivatives .....   | 148 |
| 6.3.8 | Polymerisation of SNS-Derivatives.....  | 155 |
| 7.    | References .....  | 157 |
| 8.    | Curriculum Vitae .....  | 163 |
