

Theory and Applications of Multivariate Conditional Transformation Models

Dissertation

zur

Erlangung der naturwissenschaftlichen Doktorwürde
(Dr. sc. nat.)

vorgelegt der

Mathematisch-naturwissenschaftlichen Fakultät
der
Universität Zürich

von

Luisa Giovanna Barbanti

von

Capriasca TI

Promotionskommission

Prof. Dr. Torsten Hothorn (Vorsitz)

Prof. Dr. Reinhard Furrer

Prof. Dr. Nadja Klein

Zürich, 2022

Thesis outline

Preface	vii
Introduction	1
I Paper I	27
Multivariate Conditional Transformation Models	
<i>Nadja Klein, Torsten Hothorn, Luisa Barbanti, and Thomas Kneib</i>	
<i>Scandinavian Journal of Statistics</i> , 2022 (published)	
https://doi.org/10.1111/sjos.12501	
II Paper II	57
Multi-Species Count Transformation Models	
<i>Luisa Barbanti, Roland Brandl, and Torsten Hothorn</i>	
Under review	
https://arxiv.org/pdf/2201.13095.pdf	
III Paper III	99
A Transformation Perspective on Marginal and Conditional Models	
<i>Luisa Barbanti and Torsten Hothorn</i>	
Under review	
https://arxiv.org/pdf/1910.09219.pdf	
IV Paper IV	123
Online Appendix: A Transformation Perspective on Marginal and Conditional Models	
<i>Luisa Barbanti and Torsten Hothorn</i>	
Vignette of the <code>mtram</code> function in the <code>tram</code> package	
https://cran.r-project.org/web/packages/tram/vignettes/mtram.pdf	
Online appendix to Paper III	
A Appendix A	163
Likelihoods and Scores	
<i>Luisa Barbanti</i>
