

# **Synthesis of Cethrene Diradicaloids**

**Dissertation**

**zur**

**Erlangung der naturwissenschaftlichen Doktorwürde  
(Dr. sc. nat.)**

**vorgelegt der**

**Mathematisch-naturwissenschaftlichen Fakultät**

**der**

**Universität Zürich**

**von**

**Tomáš Pastierik**

**aus**

**der Slowakei**

**Promotionskommission**

**Prof. Dr. Michal Juríček (Vorsitz)**

**Prof. Dr. Karl Gademann**

**Prof. Dr. Ali Coskun**

**Zürich, 2023**

# Table of contents

TABLE OF CONTENTS.....	2
ABSTRACT .....	4
GENERAL INFORMATION .....	6
LIST OF ABBREVIATIONS .....	7
1 INTRODUCTION.....	10
1.1 Carbon and its allotropes.....	11
1.2 Graphene .....	14
1.2.1 Methods of preparation .....	15
1.3 Graphene fragments.....	18
1.3.1 Preparation of graphene nanoribbons.....	19
1.3.2 The interplay of size, topology, and bandgap .....	21
1.3.3 The origin of zigzag-edge reactivity & the Clar's sextet rule .....	24
1.4 Open-shell, closed-shell or in between? – A case study.....	26
1.4.1 Kekulé & non-Kekulé structures – Spin multiplicity and the difference between diradicals & diradicaloids .....	30
1.4.2 Kekulé diradicaloids with quinodimethane unit(s).....	34
1.4.2.1 Indenofluorenes and indenoacenes .....	34
1.4.2.2 $\pi$ -Extended quinodimethanes .....	36
1.4.3 Improving the stability of diradicaloids by thermodynamic and kinetic means 37	
1.4.3.1 Phenalenyl radical.....	38
1.4.3.2 Phenalenyl-based Kekulé systems – bisphenalenyl.....	42
1.4.3.3 Phenalenyl-based Kekulé systems – zethrenes and isomers .....	48
1.4.3.4 Phenalenyl-based Kekulé systems – from planar to helical.....	54
1.4.4 Design of molecular magnetic switches based on cethrene .....	56
1.4.4.1 The design of reversible switching.....	57
1.4.4.2 Optical properties and chirality .....	59
1.4.4.3 Magnetic properties .....	60
1.4.4.4 The mechanism of the switching .....	62
1.5 Synthetic approaches to [5]- and [7]helicenes.....	66
1.5.1 "Benzylic" coupling.....	67
1.5.2 Photodehydrocyclization – The Mallory reaction .....	68
1.5.3 Ring-closing metathesis (RCM).....	70
1.5.4 [2+2+2] Cycloaddition .....	71
1.6 Synthetic approaches to phenalenyl-containing systems.....	72
1.7 Aims and outline of the thesis .....	76
2 HUNT FOR A MAGNETICALLY ACTIVE SWITCH— A STORY OF [9 <sub>5</sub> ]CETHRENE.....	78
2.1 Motivation and molecular design.....	78
2.2 Retrosynthetic analysis.....	78
2.3 Synthesis of unsubstituted [9 <sub>5</sub> ]cethrene .....	80
2.3.1 Synthesis of building blocks .....	80
2.3.2 Construction of cethrene scaffold.....	81
2.3.3 Introduction of methyl groups .....	83
2.4 Synthesis of substituted [9 <sub>5</sub> ]cethrene .....	92
2.4.1 Photochemical approach to phenanthrene building blocks.....	93
2.4.2 Phenanthrene building blocks via "benzylic coupling" .....	96

2.5	<i>Conclusion and outlook</i> .....	104
3	HUNT FOR A MAGNETICALLY ACTIVE SWITCH— A STORY OF [8 <sub>5</sub> ]CETHRENE .....	105
3.1	<i>Motivation and molecular design</i> .....	105
3.2	<i>Retrosynthetic analysis</i> .....	105
3.3	<i>Synthesis of [8<sub>5</sub>]cethrene</i> .....	106
3.3.1	Synthesis of building blocks and helicene backbone .....	106
3.3.2	Synthesis of the “double tail” .....	109
3.4	<i>Redesign of synthetic pathway</i> .....	115
3.5	<i>New synthesis of [8<sub>5</sub>]Cethrene</i> .....	115
3.6	<i>Conclusion and outlook</i> .....	119
4	DIBENZO[7 <sub>5</sub> ]CETHRENE .....	120
4.1	<i>Motivation and molecular design</i> .....	120
4.2	<i>Route scouting towards dibenzo[7<sub>5</sub>]helicene</i> .....	120
4.3	<i>Improved synthetic strategy</i> .....	122
4.4	<i>Synthesis of substituted dibenzo[7<sub>5</sub>]cethrene</i> .....	134
4.5	<i>Conclusion</i> .....	140
5	INTRAMOLECULAR CYCLIZATION OF DIBENZO[7 <sub>5</sub> ]CETHRENE .....	141
5.1	<i>Investigation of the reaction mechanism</i> .....	141
5.2	<i>Conclusion and impact</i> .....	149
	SUMMARY .....	151
	ACKNOWLEDGEMENTS .....	153
	REFERENCES .....	155
	EXPERIMENTAL SECTION .....	175
	<i>Materials and methods</i> .....	175
	<i>Synthetic procedures – Chapter II</i> .....	176
	Non-substituted[9 <sub>5</sub> ]cethrene .....	176
	Substituted [9 <sub>5</sub> ]cethrene .....	189
	<i>Synthetic procedures – Chapter III</i> .....	212
	<i>Synthetic procedures – Chapter IV</i> .....	221
	Non-substituted dibenzo[7 <sub>5</sub> ]cethrene .....	221
	Substituted dibenzo[7 <sub>5</sub> ]cethrene .....	236
	<i>Synthetic procedures – Chapter V</i> .....	238
	APPENDIX .....	242
	CURRICULUM VITAE .....	366
