Table of Contents

Contents	i
Zusammenfassung	iii
Summary.....	viii
Abbreviations	xiii
1. Mass Spectrometry as a Swiss Army Knife: A Short Introduction	1
1.1 Historic Prelude	2
1.2 Principles of Mass Spectrometry.....	3
1.3 Applications of Mass Spectrometry: A Swiss Army Knife Metaphor.....	4
1.4 Finding the Needle in the Haystack: Targeted Analysis	6
1.5 Leaving no Stone Unturned: Untargeted Screenings	8
1.6 Puzzles for Advanced: Structural Elucidation by MS/MS	11
1.7 Everybody Needs a Friend: Coupling Ion Mobility with Mass Spectrometry	12
1.8 Thesis Goals	14
1.9 References.....	15
2. Quantification of Glucocorticoid and Progestogen Metabolites in Bovine Plasma, Skimmed Milk and Saliva by UHPLC-HR-MS with Polarity Switching	21
2.1 Introduction.....	23
2.2 Materials and Methods	26
2.3 Results and Discussion.....	32
2.4 Conclusion	45
2.5 References.....	46
3. A Comprehensive Method to Elucidate Pyoverdines Produced by Fluorescent <i>Pseudomonas</i> spp. by UHPLC-HR-MS/MS	51
3.1 Introduction.....	53
3.2 Materials and Methods	56
3.3 Results and Discussion.....	59
3.4 Conclusion	74

3.5 References	75
4. Rapid Identification of Pyoverdines of fluorescent <i>Pseudomonas</i> spp. by UHPLC-IM-MS	79
4.1 Introduction.....	81
4.2 Materials and Methods	83
4.3 Results and Discussion.....	86
4.4 Conclusion	101
4.5 References.....	102
5. Chryseochelins - Structural Characterization of Novel Citrate-Based Siderophores Produced by Plant Protecting <i>Chryseobacterium</i> spp.....	107
5.1 Introduction.....	109
5.2 Materials and Methods	111
5.3 Results and Discussion.....	115
5.4 Conclusion	128
5.5 References.....	128
Acknowledgements	xv
