Contents

Abstract III

Zusammenfassung V

Acknowledgements VII

1 Introduction 1

1.1 Landscape structure . . . 1
1.2 Concepts and terms . . . 2
1.3 Spatial scale . . . 4
1.4 Transition zones . . . 6
1.5 Software applications . . . 7

2 Entropy metrics 9

2.1 Shannon entropy . . . 9
2.2 Entropy-based biodiversity measures . . . 11
2.3 Entropy-based spatial indices . . . 12
2.4 Structural diversity entropy . . . 18

3 Parameters 21

3.1 Scientific contributions . . . 21
3.2 Author contributions . . . 22
3.3 Scientific paper . . . 22

4 Scale-specific structural diversity 27

4.1 Scientific contributions . . . 27
4.2 Author contributions . . . 27
4.3 Scientific paper . . . 28

5 Multi-scale structural diversity 65

5.1 Scientific contributions . . . 65
5.2 Author contributions . . . 65
5.3 Scientific paper . . . 66

6 Applications **133**

6.1 Scientific contributions 133

6.2 Author contributions 133

6.3 Scientific paper 134

7 Synthesis **159**

7.1 Methods in review and outlook 161

7.2 Application prospects 165

7.3 Conclusion 167

Abbreviations **169**

Appendix **171**

Bibliography **185**

Curriculum Vitae **187**
