

# ROUTLEDGE HANDBOOK OF COMMERCIAL SPACE LAW

*Edited by Lesley Jane Smith, Ingo Baumann, and  
Susan-Gale Wintermuth*

# CONTENTS

<i>List of figures</i>	xvi
<i>List of contributors</i>	xvii
<i>Foreword</i>	xxii
<i>Editors' preface</i>	xxiii
<i>Lesley Jane Smith, Ingo Baumann, and Susan-Gale Wintermuth</i>	
<i>Introduction</i>	xxv
<i>Lesley Jane Smith, Ingo Baumann, and Susan-Gale Wintermuth</i>	
 <b>PART I</b>	
<b>General framework and boundary conditions</b>	<b>1</b>
<b>A</b>	
<b>Changing institutional roles in space policy</b>	<b>3</b>
1 Towards a new legal ecosystem for the exploitation of space <i>Philippe Clerc</i>	5
2 The EU Regulation for the Space Programme: A new framework <i>Kamlesh Brocard</i>	24
3 Commercial space activities in the US: An overview of the current policy and regulatory framework <i>Catrina Melograna and Christopher Johnson</i>	42

<b>B</b>		
<b>Fostering NewSpace: Finance models and favourable jurisdictions</b>		<b>65</b>
4 NewSpace companies: Incorporating and financing operations		67
<i>Catherine Doldirina and Susan-Gale Wintermuth</i>		
5 The Space Protocol of the Cape Town Convention: A tool to promote greater commercialisation and private financing in the space sector		81
<i>Hamza Hameed and Anna Veneziano</i>		
<b>C</b>		
<b>The international legal framework for licensing space activities: Innovative examples</b>		<b>95</b>
6 Canada: Past, current, and future space law and policy perspectives		97
<i>Maria Rhimbassen</i>		
7 National space law and licensing of commercial space activities in Japan		119
<i>Souichirou Kozuka</i>		
8 Regulating commercial space activities in Australia and New Zealand		133
<i>Joel A. Dennerley and Maria A. Pozza</i>		
9 Practical experiences with Finland's national space legislation and lessons learned		156
<i>Jenni Tapio</i>		
10 Framework and licensing requirements for space activities in Russia, with a particular focus on the NewSpace sector		167
<i>Olga Volynskaya</i>		
11 How China incorporates and fosters commercial space activities by its national space law instruments		181
<i>Yin Zhao</i>		
12 India: Recent developments in space business and regulation		193
<i>Ranjana Kaul</i>		
<b>D</b>		
<b>Fostering innovation through competition and public procurement</b>		<b>215</b>
13 The EU and ESA rules on public procurement		217
<i>Oliver Heinrich and Jan Helge Mey</i>		

14	Procurement by ESA in times of pandemic crises <i>Stefano M. Fiorilli</i>	235
15	NewSpace growth through NASA's contractual and other transaction authorities <i>Julie Jiru and Allison Genco</i>	242
16	Public-private partnership to promote new entrants to space R&D activities in Japan <i>Mizuki Tani-Hatakenaka</i>	261
<b>PART II</b>		
	<b>Specific markets</b>	<b>277</b>
<b>A</b>		
	<b>Commercial space solutions for earth observation data and space applications</b>	<b>279</b>
17	Legal considerations for NewSpace companies when selling data (and associated products and services) to the US Government <i>Kevin Pomfret</i>	281
18	Regulation of commercial Earth observation systems and data <i>Ingo Baumann and Erik Pellander</i>	297
<b>B</b>		
	<b>Large constellations: Frequencies, registration, and interference</b>	<b>315</b>
19	A satellite operator's practical experiences with licensing and market barriers for global satellite constellations: The case of OneWeb <i>Ruth Pritchard-Kelly</i>	317
20	Registration requirements for satellites and the reality of large constellations: Ensuring a symbiosis of international law requirements and practicability <i>Bernhard Schmidt-Tedd</i>	331
<b>C</b>		
	<b>New launchers, small launchers, space ports, and space tourism</b>	<b>343</b>
21	How can the insurance market provide new and effective solutions to NewSpace technologies and services? <i>Cécile Gaubert</i>	345

22	Legislating for spaceports, commercial space markets, and space tourism <i>Lesley Jane Smith, Ruairidh J.M. Leishman, and Alan Thompson</i>	361
<b>D</b>		<b>383</b>
	<b>Space mining</b>	
23	National and international norms towards the governance of commercial space resource activity <i>Tanja Masson-Zwaan and Mark J. Sundahl</i>	385
<b>E</b>		<b>403</b>
	<b>Specific aspects of smart contracts and blockchain technology</b>	
24	Blockchain and smart contracts in space operations <i>P. J. Blount and Giulia De Rossi</i>	405
25	Agile contracts for space projects <i>Gerhard Deiters</i>	419
<b>PART III</b>		
	<b>Cross-cutting items and challenges</b>	<b>435</b>
<b>A</b>		<b>437</b>
	<b>International standards and export control</b>	
26	Export control and NewSpace: Reciprocal challenges <i>Matthias Creydt and Lisa Gräfin von der Schulenburg</i>	439
<b>B</b>		<b>451</b>
	<b>Active debris removal, on-orbit servicing, and space traffic management</b>	
27	Towards space traffic management <i>Holger Krag and Lesley Jane Smith</i>	453
28	Future regulatory and licensing trends for active debris removal and on-orbit servicing in the UK and US <i>Jason Forshaw and Laura Cummings</i>	467
29	Legal aspects of ground-based infrastructure for space situational awareness <i>Olga Batura and Regina Peldszus</i>	490

<b>C</b>	
<b>Long-term sustainability and the changing nature of space law (cybersecurity)</b>	<b>501</b>
30 Space cybersecurity and US law <i>P. J. Blount</i>	503
31 NewSpace and ensuring long-term sustainability of the space environment <i>Gina Petrovici and Ulrike M. Bohlmann</i>	515
32 Ensuring space sustainability through national space legislation <i>Ingo Baumann and Erik Pellander</i>	533
<b>D</b>	
<b>Outlook</b>	<b>547</b>
33 Mission off-world: A technology-enabled vision for reimagining our society on Earth and beyond <i>Adriana Marais</i>	549
<i>Index</i>	567
