## **PART I      RESEARCH PLANNING**

|           |                                                                      |    |
|-----------|----------------------------------------------------------------------|----|
| Chapter 1 | Introduction to the Psychology Research Handbook                     | 1  |
|           | <i>Frederick T. L. Leong and James T. Austin</i>                     |    |
| Chapter 2 | The Research Process as a Script                                     | 5  |
|           | <i>Douglas A. Hershey, Joy M. Jacobs-Lawson and Thomas L. Wilson</i> |    |
| Chapter 3 | Finding a Research Topic                                             | 27 |
|           | <i>Frederick T. L. Leong and Ross I. Walker</i>                      |    |
| Chapter 4 | Bibliographic Research                                               | 43 |
|           | <i>Jeffrey G. Reed, Pam M. Baxter and Ciara K. Kidder</i>            |    |
| Chapter 5 | Reviewing and Evaluating a Research Article                          | 61 |
|           | <i>Kathryn C. Oleson and Sonia A. Swanson</i>                        |    |
| Chapter 6 | Program Evaluation: Concepts and Perspectives                        | 79 |
|           | <i>James W. Altschuld and Traci L. Lepicki</i>                       |    |

## **PART II      DESIGN, INSTRUMENT SELECTION OR DEVELOPMENT, AND SAMPLING**

|            |                                                                                |     |
|------------|--------------------------------------------------------------------------------|-----|
| Chapter 7  | Designing a Research Study                                                     | 97  |
|            | <i>Siddharth Chandra and Madhur Chandra</i>                                    |     |
| Chapter 8  | Evaluating and Selecting Psychological Measures for<br>Research Purposes       | 111 |
|            | <i>P. Priscilla Lui</i>                                                        |     |
| Chapter 9  | Designing Surveys and Questionnaires for Research                              | 123 |
|            | <i>Daniel Villanova and Peter Villanova</i>                                    |     |
| Chapter 10 | Scale Development                                                              | 137 |
|            | <i>Howard E. A. Tinsley and John W. Lounsbury</i>                              |     |
| Chapter 11 | Applying Sampling Procedures                                                   | 169 |
|            | <i>Allyson Holbrook and William C. McCreedy</i>                                |     |
| Chapter 12 | Power and Evidence                                                             | 187 |
|            | <i>Meng-Ting Lo, Nivedita Bhaktha, Susie Mauck and Ann A. O'Connell</i>        |     |
| Chapter 13 | IRB as Critical Collaborators in Research                                      | 223 |
|            | <i>Melanie M. Domenech Rodríguez, Alejandro L. Vázquez and Nicole Vouvalis</i> |     |

## **PART III DATA COLLECTION**

|            |                                                                 |     |
|------------|-----------------------------------------------------------------|-----|
| Chapter 14 | Conducting Mail and Digital Surveys                             | 241 |
|            | <i>Sofia Pinero Kluch, Chad S. Briggs and Alan Vaux</i>         |     |
| Chapter 15 | Conducting Telephone Surveys                                    | 273 |
|            | <i>Yueng-hsiang Huang and Jin Lee</i>                           |     |
| Chapter 16 | Collecting Data in Groups                                       | 293 |
|            | <i>Stephen J. Zaccaro and Lauren N. P. Campbell</i>             |     |
| Chapter 17 | Alternative Data Collection Strategies                          | 305 |
|            | <i>Erin Stupica, Brandi Stupica and Neil Christiansen</i>       |     |
| Chapter 18 | Cleaning up Data and Running Preliminary Analyses               | 319 |
|            | <i>Karla K. Fehr, Stephen J. Dollinger and David L. DiLalla</i> |     |
| Chapter 19 | Qualitative Research in Psychology                              | 335 |
|            | <i>Linda M. McMullen and Frederick J. Wertz</i>                 |     |

## **PART IV DATA ANALYSIS**

|            |                                                                                                     |     |
|------------|-----------------------------------------------------------------------------------------------------|-----|
| Chapter 20 | A Basic Guide to Statistical Research and Discovery:<br>Planning and Selecting Statistical Analyses | 357 |
|            | <i>Charles A. Scherbaum and Kristen M. Shockley</i>                                                 |     |
| Chapter 21 | Basic Statistical Analysis                                                                          | 379 |
|            | <i>David N. Dickter</i>                                                                             |     |
| Chapter 22 | Using Advanced Statistics                                                                           | 395 |
|            | <i>Lisa A. Steelman and Zhiqing E. Zhou</i>                                                         |     |
| Chapter 23 | The Essence and Application of Structural Equation<br>Modeling                                      | 405 |
|            | <i>Barbara M. Byrne</i>                                                                             |     |
| Chapter 24 | Conducting a Meta-Analysis                                                                          | 427 |
|            | <i>Frederick L. Oswald, Felix Y. Wu and Yaojia R. Chen</i>                                          |     |
| Chapter 25 | Archival Data Sets: Revisiting Issues and Considerations                                            | 441 |
|            | <i>Barbara H. Zaitzow and Matthew B. Robinson</i>                                                   |     |

## **PART V RESEARCH WRITING**

|            |                                                                        |     |
|------------|------------------------------------------------------------------------|-----|
| Chapter 26 | Writing in APA Style: Why and How                                      | 461 |
|            | <i>Robert F. Calderón and William N Haller</i>                         |     |
| Chapter 27 | Writing Rough Drafts                                                   | 479 |
|            | <i>Edward C. Chang, Claire J. Shimshock and Christopher Peterson</i>   |     |
| Chapter 28 | Revising a Research Manuscript                                         | 491 |
|            | <i>Donna K. Nagata, Steven J. Trierweiler and Jacqueline H. J. Kim</i> |     |
| Chapter 29 | Dealing With Journal Editors and Reviewers                             | 505 |
|            | <i>Samuel H. Osipow and Mark M. Leach</i>                              |     |

**PART VI      SPECIAL TOPICS**

|                               |                                                                                            |            |
|-------------------------------|--------------------------------------------------------------------------------------------|------------|
| Chapter 30                    | Becoming Part of a Large and Successful Research Team                                      | 513        |
|                               | <i>Patrick S. Ledwidge, Caitlin J. Masterson, Andrea M. Meinders and Dennis L. Molfese</i> |            |
| Chapter 31                    | Multilevel Research                                                                        | 527        |
|                               | <i>David Chan</i>                                                                          |            |
| Chapter 32                    | Computational Modeling                                                                     | 547        |
|                               | <i>Michael J. Zickar, Feng Guo</i>                                                         |            |
| Chapter 33                    | Applying for Research Grants                                                               | 563        |
|                               | <i>Jen Burke Lefever, John G. Borkowski and Kimberly H. Robinson</i>                       |            |
| Chapter 34                    | Cross-Cultural Research Methodology                                                        | 575        |
|                               | <i>David Matsumoto, Hyisung C. Hwang, Kwok Leung and Fons J. R. Van de Vijver</i>          |            |
| Chapter 35                    | Replicability and Reproducibility in Psychology                                            | 587        |
|                               | <i>Victor N. Keller and Joseph Cesario</i>                                                 |            |
| Chapter 36                    | Applying Theories to Research: The Interplay of Theory and Research in Science             | 603        |
|                               | <i>Charles J. Gelso and Alexandra E. Savelle</i>                                           |            |
| Chapter 37                    | The Research Script: One Researcher's View                                                 | 615        |
|                               | <i>Richard E. Petty</i>                                                                    |            |
| <b>References</b>             |                                                                                            | <b>633</b> |
| <b>Index</b>                  |                                                                                            | <b>701</b> |
| <b>About the Editors</b>      |                                                                                            | <b>715</b> |
| <b>About the Contributors</b> |                                                                                            | <b>717</b> |
