<i>Preface</i>	xi
<i>Acknowledgments</i>	xv
Introduction: Connecting Elite Power to Inequality	1
I.1. Main Contributions	7
I.2. Why Join Elite Networks? The Three Principles	11
I.3. Why Should Elite Networks Have Any Effect on Inequality?	17
I.4. The Cyclicity of Inequality	21
I.5. What This Book Does <i>Not</i> Do: External Validity Limitations and Potential Extensions	26
I.6. Structure of the Book	29
1. Why Study Elite Networks?	34
1.1. Defining Elite Networks: Informal Mutually Beneficial Interactions between Political and Corporate Elites	34
1.1.1. Does It Pay Off to Be Part of the Network?	37
1.1.2. The Role of Institutions	39
1.1.3. Elite Theory in Sociology	41
1.1.4. The Spontaneous Nature of Elite Networks	42
1.2. Visualizing Elite Networks	46
1.3. Putting Elite Networks on the Map of Political Interactions	59
1.4. Quantifying Elite Network Outcomes	64
 PART I: THE IMPACT OF ELITE NETWORKS ON INEQUALITY	
2. Evolution of Elite Networks and Inequality: Inequality in the Very Long Run	71
2.1. The Agricultural Revolution: From Hunter-Gatherers to Settlers	72
2.2. How Exactly Did Farming Translate to Inequality?	75
2.3. Proto-States and the Formation of Hierarchical Orders	77
2.4. Concentration of Wealth in Ancient Civilizations: Rise of the Malthusian Economic Model	81
2.5. The Long Malthusian Trap: Inequality and Elite Concentration during the Middle Ages until the Industrial Revolution	85
2.6. Wealth Concentration and Elite Power in the 19th and 20th Centuries: From a “Society of Rentiers” to a “Society of Managers”	90

3. Democracy and Inequality in the Short Run	101
3.1. The Switch toward Democracy	101
3.2. The Relationship between Democracy and Inequality	104
3.3. The Rise of Government Spending in Democracies	108
3.4. The Rise of Inequality in Democracies	115
3.5. Economic Explanations of the Rise of Inequality	120
3.6. Political Factors That Could Help Explain the Rise of Inequality	126
4. Political Networks and Wages of Top Corporate Income Earners	132
4.1. Data and Variables	133
4.1.1. Measuring Networks and Connections of Individuals and Firms	134
4.1.2. Correlation between Political Connections and Network Size	139
4.2. Inequality in Top Executive Incomes	139
4.3. Empirical Strategy and Results	152
4.3.1. Results: United States	154
4.3.2. Results: United Kingdom	159
4.4. The Impact of Political Connections on Executive Salaries in Other Countries	164

PART II: INSIDE THE LOGIC OF AN ELITE NETWORK

5. The Internal Logic of an Elite Network	171
5.1. Network Theory of Elites	172
5.1.1. The Link between Clustering and Size of Networks	174
5.1.2. The Centrality of Elite Network Superhubs	177
5.1.3. Historical Examples of Elite Networks	179
5.1.4. Incentives for Firms and the Impact on Inequality	184
5.2. Economic Theory: Costs and Benefits of Elite Network Membership	186
5.3. Joining Elite Networks to Mitigate Risk and Achieve Status: The Three Principles	189
6. Motivation for Politicians: Extracting Rents and Staying in Power	195
6.1. Corruption, Clientelism, and Rent-Extraction	196
6.1.1. Political Agency	197
6.2. Do Voters Punish Corruption?	199
6.3. Elite Networks and the Selectorate Theory	201
6.3.1. The Nonlinearity between Corruption and Political Survival	204
6.4. Case Study: Using Corruption and Minimum Winning Coalitions to Stay in Power	205
6.4.1. The Impact of Minimum Winning Coalitions	210

7. The Role of the Firm	213
7.1. Rent-Seeking vs. Customer-Seeking Firms	216
7.2. How Firms Benefit from Collusion with Politics	218
7.3. The Revolving Door between Politics and Finance	221
7.4. Case Study: Political Allocation of TARP Funds during 2008 and 2009	226

**PART III: REDUCING POLITICAL POWER,
THE ROOT CAUSE OF INEQUALITY**

8. Capitalism and Democracy	235
8.1. How Far Have We Come?	235
8.2. Persistent Incentive to Change	241
8.3. The Gradual Shift to Democracy	243
8.4. Democracies as a Trial-and-Error Process	245
8.5. Socialism's Rapid Industrialization with a Lack of Trial-and-Error in the Underdeveloped Periphery	246
8.5.1. Condensing 200 Years of Gradual Progress into 30 Years of Rapid Growth	248
9. The Pitfalls of Political Power: Expanding the Scope of Government to Reduce Inequality	260
9.1. Progressive Taxation	260
9.1.1. The Unprecedented 30-Year Period That Brought Down Inequality	263
9.1.2. The Artificial Decrease of Inequality	265
9.2. Adverse Selection into Politics	270
9.2.1. Personalization of Governing Institutions	272
9.3. The Importance of Trust	275
10. The Three Levers	278
10.1. Moving beyond Standard Approaches: Introducing the Three Levers	278
10.2. First Lever: Reducing Political Power	281
10.2.1. Full Transparency of Budgetary Spending and Decision-Making	282
10.2.2. Encourage and Promote Free, Independent Media	284
10.2.3. Term Limits and Strict Conditions for Holding Office	287
10.2.4. Reduce Discretionary Decision-Making Power and Introduce Rule-Based Politics	290
10.2.5. Reduce the Scope of Centralized Government	295
10.2.6. Minor Reforms That Could Strengthen the First Lever	297
10.3. Second Lever: Re-Empowering the Citizens	300

X CONTENTS

10.3.1. Give Citizens the Ability to Take Control of Their Tax Payments	300
10.3.2. Mandatory Participatory Budgeting for Community Public Good Provision	303
10.3.3. Granting Impeachment Powers to the Citizens for Direct Punishment of Officials	305
10.4. Third Lever: Re-Empowering the Community	308
10.4.1. Decentralize and Depersonalize Decision-Making over Allocation of Public Funds	313
10.5. Second- and Third-Order Effects of the Three Levers	316
<i>Afterword</i>	321
<i>Notes</i>	323
