

# **Evolvability**

## **A Unifying Concept in Evolutionary Biology?**

Edited by Thomas F. Hansen, David Houle, Mihaela Pavličev,  
and Christophe Pélabon

**The MIT Press**  
**Cambridge, Massachusetts**  
**London, England**

## Contents

	Series Foreword	ix
	Gerd B. Müller, Thomas Pradeu, and Katrin Schäfer	
<b>1</b>	<b>Introduction: Evolvability</b>	<b>1</b>
	Thomas F. Hansen, Christophe Pélabon, David Houle, and Mihaela Pavličev	
<b>2</b>	<b>A History of Evolvability: Reconstructing and Explaining the Origination of a Research Agenda</b>	<b>11</b>
	Laura Nuño de la Rosa	
<b>3</b>	<b>Conceptual Roles of Evolvability across Evolutionary Biology: Between Diversity and Unification</b>	<b>35</b>
	Cristina Villegas, Alan C. Love, Laura Nuño de la Rosa, Ingo Brigandt, and Günter P. Wagner	
<b>4</b>	<b>Evolvability as a Disposition: Philosophical Distinctions, Scientific Implications</b>	<b>55</b>
	Ingo Brigandt, Cristina Villegas, Alan C. Love, and Laura Nuño de la Rosa	
<b>5</b>	<b>Variation, Inheritance, and Evolution: A Primer on Evolutionary Quantitative Genetics</b>	<b>73</b>
	Thomas F. Hansen	
<b>6</b>	<b>Measuring Evolvability</b>	<b>101</b>
	David Houle and Christophe Pélabon	
<b>7</b>	<b>The Evolution of Evolvability</b>	<b>121</b>
	Thomas F. Hansen and Günter P. Wagner	
<b>8</b>	<b>The Genotype-Phenotype Map Structure and Its Role in Evolvability</b>	<b>147</b>
	Mihaela Pavličev, Salomé Bourg, and Arnaud Le Rouzic	

<b>9</b>	<b>The Developmental Basis for Evolvability</b>	171
	Benedikt Hallgrímsson, J. David Aponte, Marta Vidal-García, Heather Richbourg, Rebecca Green, Nathan M. Young, James M. Cheverud, Anne L. Calof, Arthur D. Lander, and Ralph S. Marcucio	
<b>10</b>	<b>Models of Contingent Evolvability Suggest Dynamical Instabilities in Body Shape Evolution</b>	199
	Günter P. Wagner	
<b>11</b>	<b>Mutational Robustness and Evolvability</b>	221
	Andreas Wagner	
<b>12</b>	<b>Evolvability, Sexual Selection, and Mating Strategies</b>	239
	Jacqueline L. Sztepanacz, Josselin Clo, and Øystein H. Opedal	
<b>13</b>	<b>Can We Explain Variation in Evolvability on Ecological Timescales?</b>	267
	Christophe Pélabon, Michael B. Morrissey, Jane M. Reid, and Jacqueline L. Sztepanacz	
<b>14</b>	<b>Does Lack of Evolvability Constrain Adaptation? If So, on What Timescales?</b>	289
	Kjetil L. Voje, Mark Grabowski, Agnes Holstad, Arthur Porto, Masahito Tsuboi, and Geir H. Bolstad	
<b>15</b>	<b>Evolvability of Flowers: Macroevolutionary Indicators of Adaptive Paths of Least Resistance</b>	307
	W. Scott Armbruster	
<b>16</b>	<b>Evolvability of Body Plans: On Phylotypic Stages, Developmental Modularity, and an Ancient Metazoan Constraint</b>	329
	Frietson Galis	
<b>17</b>	<b>Evolvability and Macroevolution</b>	351
	David Jablonski	
<b>18</b>	<b>Conclusion: Is Evolvability a New and Unifying Concept?</b>	373
	David Houle, Christophe Pélabon, Mihaela Pavličev, and Thomas F. Hansen	
	Contributors	389
	Index	391
