I. OBJECTIVES AND METHODOLOGY	1
II. INTEREST AREA OF THE RESEARCH	6
III. STRUCTURE OF THE RESEARCH	12
SECTION 1: ESSENTIAL FEATURES OF THE TOPIC	15
CHAPTER 1 THE RESEARCH QUESTIONS	15
§2 ISSUES REGARDING THE APPLICATION OF NON-POSSESSORY PLEDGE OVER THE MOVABLE PROPERTY UNDER CIVIL LAW SYSTEMS	15
I. Problems to be resolved under the Swiss legal system	17
1. Right of pledge (nantissement/Faustpfandrecht)	19
2. Mandatory dispossession of the debtor for the creation of pledge over movables	20
2.1. The role of the mortgage certificates (cédule hypothécaire / Schuldbrief)	21
2.2. Possible change due to necessities emerging in the future	21
2.3. Irreplaceability despite the personal securities and real-estate-based securities	22
2.4. Repercussions of numerus clausus of right in rem	22
2.5. Today's economic context	23
3. Insufficient theory, complacency and unwillingness	23
3.1. Non-possessory alternatives	24
3.2. Le transfert de propriété aux fins de garantie – die Sicherungsübereignung	25
3.3. La réserve de propriété/der Eigentumsvorbehalt and le leasing/der Leasingvertrag	25
3.4. La cession aux fins de garantie/die Sicherungszession ...	26

4.	Lack of a proper registry for public notice	27
4.1.	Publicity regime in brief	27
4.2.	The impact of Article 717 of the Swiss Civil Code on the publicity regime	28
4.3.	Tackling the fear with a centralized registry	28
4.4.	Interplay between public notice through registration and bona fide purchasers	29
5.	Footsteps of the upcoming change: the Swiss Report	30
5.1.	Mini, Midi and Maxi scenarios	31
5.2.	Groundbreaking recommendations for modernization ...	32
6.	Possible solutions for a more efficient model	33
II.	Problems to be resolved under the French legal system	34
1.	Lack of a clear definition of a security interest	34
2.	Crossroad between dogmatic approach and French law	35
2.1.	French revolution on security interest	35
2.2.	Dogmatic approach in the European continental jurisdictions	36
2.2.1.	Deep roots in German law	36
2.2.2.	Some reflections in French law	37
3.	The reforms of 23 March 2006 in French law	38
3.1.	Responses to the emerging market needs prior to the reforms of 23 March 2006	38
3.2.	The Grimaldi Committee's report and its general assessments	39
3.3.	In the aftermath of the reforms of 23 March 2006	40
4.	The reforms of 15 September 2021 in French law	41
4.1.	Reforms engaged with the security devices set out under French Civil Code	42
4.2.	Reforms engaged with the security devices set out under the French legal system	43
5.	Presence of less-excessive types of security interest	45
5.1.	The low-level of simplicity due to the excessive number of security devices	45
5.2.	Replaceability of certain security devices	46
5.3.	The critical role of the pledge on ongoing business	48
5.4.	One more step to go in streamlining the law on secured transactions	48
6.	Reinforced publicity and competition between the security rights	49
6.1.	Unclear problem of priority	49
6.2.	The undeniable improvements	50

7.	Registration for many, if not all: Conseil National des Greffiers de Tribunaux de Commerces	50
8.	Possible solutions for a more efficient non-possessory security interest model	51
III.	Problems to be resolved in the Turkish legal system	54
1.	Raison(s) d'être for analyzing the Turkish legal system	54
2.	General observations on the new regime – PMCT	55
3.	The significant features of registration under the Obsolete Code	56
4.	Conflicts arise: Transition from the Obsolete Code to the PMCT	57
5.	Determination of the scope of applicable parties	58
5.1.	Risky approach in regulating the scope of applicable parties	58

5.3.	De-obliging the involvement of a certified credit institution to pick up the role a secured creditor	61
6.	Popularity and perception of the new regime in a struggling economy	61
6.1.	Growing interest in the market	62
6.2.	The inefficient responses given by the Government to tackle the economic crisis and to promote the application of the PMCT	62
7.	Low-level of interaction with the Obsolete Code of Pledge over Commercial Undertaking	63
7.1.	History of the amendments and ultimate breakdown and regime change	64
7.2.	Improper rush in legislating the reform act	65
7.3.	A push to fix the mistakes by publishing multiple ordinances	65
8.	Unremoved controversies between the primary and secondary regulations	65
8.1.	Inconsistency between the provisions on applicable goods and conditions for registration	66
8.2.	The prohibition of lex commissoria	66

	8.3. The standpoint against bona fide purchasers and fixing the blazing mistake in Art. 18 PMCT	67
	9. Distortion of the hierarchy between the PMCT and its Ordinance	67
	10. Possible solutions to optimize the application of the PMCT	68
§3	ISSUES IN APPLYING FLOATING CHARGES AND FLOATING LIENS UNDER COMMON LAW SYSTEMS	71
	I. Problems to be resolved under the US legal system	72
	1. Peculiar role of definitions concerning the description of the collateral	73
	1.1. Nature of the asset to be encumbered	74
	1.2. The description of the collateral for reasonable identification by third parties	74
	1.3. Perfection depending on the nature of the collateral	75
	2. Paradoxical approach in assessing good faith	75
	3. Lack of reason for banning the phrases such as ‘all the property...’ and problematic differences regarding the parameters of reasonableness required for descriptions of collateral	77
	4. Characterization of general intangibles and the associated perfection rule	80
	5. Non-encumbrance of a valuable property – licenses and franchises	81
	6. Two-tiered perfection problem upon some type of assets	83
	7. Impact of the value-tracing concepts – a way to improve implementation of non-possessory security rights over movables	83
	8. Advance-filing and misleading records in the registry’s records	86
	9. Possible improvements under US law	87
	II. Problems requiring a resolution under the English legal system	89
	1. Various reports issued by the committees towards find a cure for the continuing problems	91
	1.1. The Cork Committee Report	92
	1.2. The ‘Diamond’ Report	93
	1.3. The Company Law Review Steering Group and the Law Commission Report	93
	1.4. The Scottish Law Commission’s reforms on personal property security law	95
	2. Recent developments taking place under English law	96
	3. Contradictions outshining the success of the reforms	97
	4. Problems identified with the registry and registration	97

5.	Adverse impacts of the global financial crisis on the SMEs concerning access to credit and denying SMEs the right to apply for floating charges	99
5.1.	Toughened access to credit and reduction of credit supply in England	99
5.2.	SMEs' exclusion from the applying for floating charges	100
6.	Unfinished reforms and existence of the problem so-called "transaction-filing" problem	102
7.	Possible solutions to increase the efficiency of floating charges	104

CHAPTER 2	HISTORICAL CONTEXT, CURRENT IMPLEMENTATION, AND GOVERNING PRINCIPLES	106
