

Oxford Textbook of

Respiratory Critical Care

EDITED BY

Suveer Singh BSc (hons), MBBS, PhD, EDIC, DICM, FHEA, FFICM, FRCP

Consultant Respiratory and Intensive Care Physician, Royal Brompton Hospital and Chelsea & Westminster Hospital; Professor of Practice, Imperial College London, United Kingdom

Paolo Pelosi MD, FERS, FESAIC

Full Professor in Anesthesiology and Critical Care, Department of Surgical Sciences and Integrated Diagnostics, University of Genoa; Director of Anesthesiology and Critical Care, San Martino Policlinico Hospital, IRCCS for Oncology and Neurosciences, Genoa, Italy

Andrew Conway Morris BSc (hons), MB ChB(hons), PhD, MRCP, FRCA, FFICM

MRC Clinician Scientist, Division of Anaesthesia, Department of Medicine, University of Cambridge; Division of Immunology, Department of Pathology, University of Cambridge; Honorary Consultant in Intensive Care Medicine, JVF Intensive Care Unit, Addenbrooke's Hospital, Cambridge, United Kingdom

Consultant Editor

Matthew P Wise MRCP, FFICM, D.Phil

Associate Medical Director for Research and Development, Cardiff & Vale University Health Board; Consultant Critical Care Physician, Adult Critical Care, University Hospital of Wales, Cardiff, United Kingdom

UNIVERSITY PRESS

Contents

Abbreviations xv

Contributors xvii

PART 1

Basic Concepts—Lung and Critical Care 1

1. **History of Mechanical Ventilation** 3
Mark Griffiths, Mary White, and Nirmala Mary Chakkalakal
2. **The Respiratory System** 7
Richard Leach
3. **Gas Exchange** 19
Andrew Cumpstey and Mike Grocott
4. **Airway Defences** 29
Thomas S Wilkinson

PART 2

The Critical Care Unit 39

5. **Organization** 41
Judit Orosz and Steve McGoughlin
6. **Emergency Planning and Disaster Management** 47
Richard Keays

PART 3

Non-invasive Ventilation 55

7. **High-flow Nasal Oxygen Therapy** 57
Federico Longhini, Paolo Navalesi, Mariachiara Ippolito, and Cesare Gregoretti

8. **Non-invasive Ventilation in Critical Care** 63
Cesare Gregoretti, Andrea Cortegiani, Vincenzo Russotto, and Lara Pisani
9. **Clinical Applications of Non-invasive Ventilation in Critical Care** 75
Federico Longhini, Rosanna Vaschetto, and Paolo Navalesi
10. **Medical Gases and Humidification** 83
Lorenzo Balli, Francesco Tasso, Veronica Vercesi, Marco Tixi, Iacopo Firpo, and Paolo Pelosi

PART 4

Basic Concepts in Positive-pressure Ventilation 91

11. **Mechanical Ventilation: How to Set Up the Ventilator** 93
Christoph Boesing, Thomas Luecke, and Joerg Krebs
12. **Pulmonary Effects of Positive-pressure Ventilation** 107
Pedro Leme Silva, Gary Nieman, Paolo Pelosi, and Patricia RM Rocco
13. **Extrapulmonary Effects of Positive-pressure Ventilation** 115
Pedro Leme Silva, Gary Nieman, Paolo Pelosi, and Patricia RM Rocco

PART 5

Monitoring the Mechanically Ventilated Patient 123

14. **Monitoring Airway Inflammation and Infection** 125
Anthony Rostron, Thomas Hellyer, and A John Simpson

15. **Monitoring Lung-protective Ventilation** 133
Paolo Formenti and John J Marini
16. **Monitoring Respiratory Muscle Function** 143
Benjamin Garfield and Sunil Patel
17. **Monitoring Cardiovascular Function in Critically Ill Patients** 153
Rodney A Gabriel and Michael R Pinsky
18. **Imaging Critically Ill Patients** 165
Arjun Nair
19. **Bronchoscopy in Critical Care** 183
Suveer Singh

PART 6

Advanced Mechanical Ventilation 195

20. **Airway Management in the Intensive Care Unit** 197
Johannes M Huitink and Lorenz G Theiler
21. **Acute Respiratory Distress Syndrome** 211
Michele Umbrello, Paolo Formenti, and Davide Chiumello
22. **Advanced Respiratory Therapies: Inhaled Therapies, Heliox, ECMO and ECCO₂-R, and Non-conventional Ventilatory Modes** 229
Stephan Ehrmann, Nicole P Juffermans, Marcus J Schultz, Nicolò Patroniti, Alex Molin, Martin Scharffenberg, Sabine Nabecker, and Marcelo Gama de Abreu

PART 7

Care of the Ventilated Patient 251

23. **Thromboprophylaxis** 253
Emma Louise Hartley and Andrew Retter
24. **Fluid Balance** 257
Hollmann D Aya and Maurizio Cecconi
25. **Sedation, Analgesia, and Paralysis** 261
Yahya Shehabi and Maja M Green
26. **Nutrition** 269
Danielle E Bear and Zudin Puthuchery

27. **Gastric Protection** 273
Mette Krag, Morten Hylander Møller, Suman Singh, and Matthew P Wise
28. **Mucus and Bronchopulmonary Clearance** 279
Susannah Leaver and Jonathan Ball
29. **Delirium and Sleep** 283
Ahmed Al-Hindawi, Eli Rogers, and Marcelo P Vizcaychipi
30. **Physiotherapy** 289
Bronwen Connolly and Paul Twose
31. **Human Factors** 293
Christopher D Hingston

PART 8

Respiratory Infections 299

32. **Ventilator-associated Pneumonia** 301
Vimal Grover and Suveer Singh
33. **Bacterial Pneumonia** 311
David R Woods and Ricardo J José
34. **Viral Pneumonias** 327
Jordi Rello, Eleonora Bunsow, and Leonel Lagunes
35. **COVID-19 in the Intensive Care Unit: Epidemiology, Pathophysiology, Respiratory Management, Haemodynamic Support, Renal Support, Pharmacological Treatments, and Superinfection** 335
Jonathon P Fanning, Gianluigi Li Bassi, Patricia Rieken Macedo Rocco, Lorenzo Ball, Antonio Messina, Marlies Ostermann, Matteo Bassetti, and Daniele Roberto Giacobbè
36. **Pleural Infection** 353
Loïc Lang-Lazdunski
37. **Fungal Respiratory Infections** 361
Matteo Bassetti, Alessia Carnelutti, and Elda Righi
38. **Mycobacterial Infections** 367
Christopher Orton, Hannah Jarvis, and Onn Min Kon
39. **Travellers' Pneumonia** 371
Dhruva Chaudhry, Pawan Kumar Singh, and Manjunath B Govindagoudar
40. **Pharmacology of Anti-infective Drugs in Critical Illness** 377
Vanya Gant

PART 9
Critical Care Management of Pulmonary Diseases and Other Respiratory Manifestations 383

41. **Chronic Obstructive Pulmonary Disease** 385
Andrea Carsetti and Simone Bazurro
 42. **Asthma** 391
Mara Ricci, Giovanni Carmine Iovino, Lucrezia Mincione, Ivan Dell'atti, and Salvatore Maurizio Maggiore
 43. **Thromboembolic Disease** 397
Caroline Patterson and Derek Bell
 44. **Pulmonary Haemorrhage** 403
Vasilis Kouranos
 45. **Pulmonary Hypertension and Cor Pulmonale** 411
Laura C Price, S John Wort, and Simon J Finney
 46. **Organizing Pneumonia** 419
Peter M George, Suveer Singh, and Felix Chua
 47. **Interstitial Lung Disease** 427
Philip L Molyneaux and Athol U Wells
 48. **The Haematological Patient** 433
Nilima Parry-Jones, Jack Parry-Jones, and Matthew P Wise
 49. **Oncological Aspects of Respiratory Critical Care** 437
Hemang Yadav, Alastair C Carr, and Philippe R Bauer
 50. **Sickle-cell Disease** 445
Muriel Fartoukh, Guillaume Voiriot, Aude Gibelin, Julien Lopinto, and Armand Mekontso-Dessap
 51. **Neuromuscular Disease** 451
Michael I Polkey
 52. **Pleural Disease** 457
Fraser Brims and Edward TH Fysh
 53. **Chest Wall Disease and Post-thoracic Surgery** 463
Thomas Kiss and Marcelo Gama de Abreu
 54. **Obesity** 469
Audrey de Jong and Samir Jaber
 55. **Trauma** 473
Timothy E Scott and Christopher MR Satur
 56. **Pneumothorax and Air Leaks** 479
Giorgio Della Rocca and Luigi Vetrugno
 57. **The Obstetric Patient** 485
Timothy Crozier
 58. **Transfusion** 491
Markus Honickel, Oliver Grottke, and Rolf Rossaint
 59. **Anaphylaxis** 497
Jasmeet Soar, Fiona Moghaddas, and Stephen M Robinson
 60. **Aspiration and Drowning** 503
Simone Bazurro, Andrea Carsetti, and Greg McNulty
 61. **Burns Inhalation Injury** 507
Sabri Soussi, Matthieu Legrand, and Suveer Singh
 62. **Poisoning** 515
Omender Singh, Suneel Kumar Garg, and Deven Juneja
 63. **Lung Transplantation** 525
Thomas Bein and Michael Pfeifer
-
- PART 10**
- Weaning and Long-term Ventilation 531**
64. **Liberation from Mechanical Ventilation** 533
Patrick B Murphy, Andrew Jones, and Luigi Camporota
 65. **Home Mechanical Ventilation** 545
Rachel D'Oliveiro and Michael Davies
- Index* 553
