CONTENTS

List of contributors *xi*
Acknowledgments *xvi*

1 Introduction to the *Routledge Handbook of Urban Biodiversity* 1
Charles H. Nilon and Myla F.J. Aronson

PART 1
Setting the stage for urban biodiversity research and practice 7

2 History of urban biodiversity research and practice 9
Charles H. Nilon

3 Comparative urban ecology and the gradient approach: extending knowledge by acknowledging the diversity of cities around the world 19
Amy K. Hahs

4 Urban climate and the biophysical environment 36
Peter Ibsen, Dion Kucera, Stephanie Piper, and G. Darrel Jenerette

5 Understanding land use, land cover, and landscape patterns of the world's cities for sustainable biodiversity planning 52
Cynnamon Dobbs, Dagmar Haase, and Ulla Mörtberg

PART 2
Foundational concepts and theory in urban biodiversity research 73

6 The application of landscape ecology and biogeography in the study of urban biodiversity 75
Christopher A. Lepczyk and Frank A. La Sorte

7 Community assembly and filtering of urban ecosystems 85
Myla F.J. Aronson, Christopher A. Lepczyk, and Karl L. Evans

8 From filters to feedbacks: how do people influence biodiversity across scales? 98
Riley Andrade, Paige S. Warren, and Sarel S. Cilliers

9 People's decisions shape urban habitats 111
Dave Kendal, Emily Minor, and Monika Egerer

10 Scaling-up the management and conservation of urban biodiversity 127
Susannah B. Lerman, Josep Padullés Cubino, and Mark A. Goddard

11 Connecting biodiversity and human wellbeing 141
Jessica C. Fisher, Maximilian Nawrath, Martin Dallimer, Katherine N. Irvine, and Zoe G. Davies

12 Multidimensionality of biodiversity in urban social-ecological soil systems 154
Loren B. Byrne and Katalin Szlavecz

13 Plant invasions in cities: patterns, processes, consequences, and management 172
Mirijam Gaertner and Ingo Kowarik

14 The importance of citizen science for understanding urban biodiversity 191
Christopher A. Lepczyk and Timothy Vargo

PART 3
Population and community ecology of key urban taxa **203**

15 Patterns and drivers of plant biodiversity in urban and urbanizing landscapes 205
Sonja Knapp and Wayne Zipperer

16 Urbanization shapes insect diversity 219
Emily K. Meineke, Elsa Youngsteadt, Mia K. Lippey, and Katherine C.R. Baldock

17 Birds in an urban world: community patterns across cities 247
Christine Rega-Brodsky and Ian MacGregor-Fors

18 A cross-continental synthesis of urban insectivorous bat research and future directions 262
Caragh G. Threlfall and Kirsten Jung

19 Impacts of urbanization on amphibians and opportunities for their conservation in cities 275
Kirsten M. Parris

20 Freshwater biodiversity in urban ecosystems 289
Augustin C. Engman and Allison H. Roy

PART 4
Urban biodiversity practice: management, planning, and design for healthy communities **305**

21 Urban green infrastructure, biodiversity, poverty, and equity 307
Charlie M. Shackleton

22 Managing vegetation for urban biodiversity 320
Jun Yang, Sonja Knapp, and Wayne Zipperer

23 The role of engineered green infrastructure in supporting urban biodiversity 333
J. Scott MacIvor, Nicholas S.G. Williams, and Jeremy Lundholm

24 Global biodiversity requires integrating social and ecological goals for urban biodiversity: insights from ecological restoration 346
Lea R. Johnson

25 Cities are planning for biodiversity: a global survey of city plans 361
Karen M. O'Neill, Myla F.J. Aronson, Charles H. Nilon, Sarel S. Cilliers, Cynnamon Dobbs, Lauren J. Frazee, Mark A. Goddard, Debra Roberts, Emilie K. Stander, Peter Werner, and Ken P. Yocom

26 Development and evolution of urban biodiversity indicators and assessment tools 379
Yuta Uchiyama and Ryo Kohsaka

27 Urban biodiversity: opportunities and challenges in the Paris Region 388
Marc Barra

28 Regeneration of urban nature: from planning to action 400
Diana Wiesner

29 Design for urban biodiversity: applying research on biodiversity of urban lawns into landscape design practice 418
Maria Ignatieva
