Part I Introduction and Key Concepts

1 Economics and the Environment	3
Introduction	3
1.1 Economics for a Sustainable World	4
1.2 State of the Economy	8
1.3 State of the Environment	12
1.4 Environmental Scarcity and Economic Constraints	20
1.5 Pessimistic View	26
1.6 Optimistic View	27
Summary	29
2 Sustainable Economic Development	32
Introduction	32
2.1 History of Sustainable Development	33
2.2 Systems Approach to Sustainability	35
2.3 Capital Approach to Sustainability	44
2.4 Intragenerational Equity: The Special Case of Low- and Middle-Income Countries	56
2.5 Intergenerational Equity: The Issue of Growth and the Environment	63
Summary	67

Part II Economic Tools and Techniques

3 Demand, Supply, and Efficient Allocation	71
Introduction	71
3.1 Approaching the Problem	72
3.2 Economic Framework	73
3.3 Demand	75
3.4 Supply	84
3.5 Efficient and Optimal Allocation	94
Summary	99

4	Market and Policy Failures	102
	Introduction	102
	4.1 Real-World Misallocation	103
	4.2 Implications of Misallocation	104
	4.3 Market Failures	106
	4.4 Policy Failures	129
	Summary	137
5	Economic Values and Valuation Methods	140
	Introduction	140
	5.1 Economic Values and the Environment	141
	5.2 Classification of Economic Values	148
	5.3 Economic Valuation Methods	151
	Summary	173
6	Cost–Benefit Analysis	175
	Introduction	175
	6.1 Cost–Benefit Analysis Framework	176
	6.2 Discounting Future Costs and Benefits	178
	6.3 Cost–Benefit Analysis Rules	185
	6.4 Risk and Uncertainty	186
	6.5 Distributional Issues	189
	6.6 Cost–Benefit Analysis of Mangrove Conversion in Thailand	191
	Summary	194
7	Policy Options	197
	Introduction	197
	7.1 Policy Steps	198
	7.2 Market-Based Instruments	206
	7.3 Regulatory Approaches	219
	7.4 Private Sector Initiatives	222
	Summary	228
Part III Application to Environmental Sustainability		
8	Land Use and Agriculture	233
	Introduction	233
	8.1 Sustainable Development Goal 2: Zero Hunger	234
	8.2 Agricultural Land Use and Food Insecurity	237
	8.3 Meeting the Challenge: Expanding Agricultural Production	243
	8.4 Policy Options for Sustainable Land Use and Agriculture	250
	Summary	257

9 Water Scarcity	260
Introduction	260
9.1 Sustainable Development Goal 6: Clean Water and Sanitation	261
9.2 Water Crises and Stress	264
9.3 Water Scarcity and Markets	267
9.4 Meeting the Challenge: Water Markets and Trades	272
9.5 Policy Options for Sustainable Water Use	277
Summary	289
10 Minerals and Energy	292
Introduction	292
10.1 Sustainable Development Goal 7: Affordable and Clean Energy	293
10.2 Minerals and Energy Scarcity	296
10.3 Optimal Extraction of an Exhaustible Resource	301
10.4 Meeting the Challenge: Rising Non-Renewable Resource Prices	306
10.5 Policy Options for Scarce Minerals and Energy	307
Summary	315
11 Oceans and Marine Resources	318
Introduction	318
11.1 Sustainable Development Goal 14: Life below Water	319
11.2 Ocean Ecosystem Scarcity and Stress	322
11.3 Fish as a Renewable Natural Resource	325
11.4 Meeting the Challenge: Open Access Conditions	334
11.5 Policy Options for Sustainable Ocean Ecology and Economy	336
Summary	349
12 Forests and Biodiversity	351
Introduction	351
12.1 Sustainable Development Goal 15: Life on Land	352
12.2 Forests and Biodiversity Loss	355
12.3 Meeting the Challenge: Underpricing and Underfunding of Nature	363
12.4 Policy Options for Sustainable Forests and Biodiversity	369
Summary	382
13 Local and Regional Pollution	385
Introduction	385
13.1 Sustainable Development Goal 12: Sustainable Consumption and Production Patterns	386
13.2 Local and Regional Pollution	389
13.3 Meeting the Challenge: Economics of Pollution Management	397
13.4 Policy Options to Improve Resource Productivity and Reduce Waste Yield	405
Summary	410

14 Global Pollution	413
Introduction	413
14.1 Sustainable Development Goal 13: Climate Action	414
14.2 Emissions of Ozone-Depleting Substances	417
14.3 Greenhouse Gas Emissions and Global Warming	422
14.4 Policy Options to Combat Global Warming	432
14.5 Meeting the Challenge: Reducing Greenhouse Gas Emissions	438
Summary	448
Part IV Global Sustainability	
15 Toward Global Sustainability	453
Introduction	453
15.1 Sustainable Development Goal 17: Partnership for the Goals	454
15.2 Progress toward Global Sustainability	457
15.3 Policy Options for Global Sustainability	464
15.4 Meeting the Challenge: Greening the Global Economy	477
Summary	481
Glossary	484
References	497
Index	522
