List of figures and tables

Figures

1.1	Evolution of mortality in Europe due to the COVID-19 pandemic	14
3.1	COVID-19 deaths among care home residents in the first wave (up to 26 June 2020), as a percentage of all COVID-19 deaths	36
3.2	COVID-19 deaths among care home residents in the second wave (between 26 June 2020 and 26 January 2021), as a percentage of all COVID-19 deaths	49
3.3	New cases as a percentage of the respective population in care homes, the Austrian population without care home residents, and the population aged 85 and older	50
3.4	New deaths as a percentage of the respective population in care homes, the Austrian population without care homes, and the population aged 85 and older	50
8.1	Relatives' cooperation rate	151
13.1	Evolution of the COVID-19 pandemic in Portugal (from 2 March 2020 to 4 September 2022)	234
13.2	People aged over 65, 75, and 85 years old as a percentage of the total population	235

Tables

1.1	Institutional capacity and policy integration framework for analysing the management of nursing homes in the context of the COVID-19 pandemic	11
3.1	Number of care recipients and staff in two settings of care, 2020	40
8.1	Cases by sex and age until 31 May 2020, Greece	140
11.1	Estimated market shares of different forms of LTC providers, end 2018	199
13.1	Evolution of the number of social facilities for the elderly in Portugal, from before 1974 to 2000	239
13.2	Social services for the elderly, Portugal, 1998 and 2018	240
14.1	Closing of care homes: indications from employers' organisations and autonomic instructions	261
16.1	Limited policy integration in the management of nursing homes in the context of the COVID-19 pandemic	297
