

R. K. Ganjoo · M. N. Koul

The Himalayan Glaciers, Climate Change and Society

A Case Study of the Northwestern Himalayas,
India

 Springer

Contents

1 Introduction	1
1.1 The Geology	4
1.2 The People and History	5
1.3 Climate Change and Himalayan Glaciers—A Paradox	8
1.4 Background to the Book	10
2 Geological Overview of the Glacier Valleys	15
2.1 Ladakh Himalaya	17
2.2 Nubra-Shyok Valley	18
2.2.1 Quaternary Climate and Palaeo-Glaciation of Ladakh-Karakoram Region	19
2.3 Zaskar-Suru Valley	23
2.3.1 Quaternary Climate and Palaeo-Glaciation of Zaskar-Suru Valley	25
2.4 Baspa Valley	30
2.4.1 Quaternary Climate and Palaeo-Glaciation of Baspa Valley	31
2.5 Liddar Valley (Kashmir)	32
2.5.1 Quaternary Climate and Palaeo-Glaciation of Liddar Valley	33
2.6 Summary	35
3 Climate and It's Variables	37
3.1 Glacier Valley Orogeny	38
3.2 Climate and Glacier Valley Relationship	39
3.3 Weather Mechanism: Dualistic Approach	40
3.4 Slope Environment Lapse Rate: Characteristic of Temperature and Precipitation Variation	42
3.5 Northwest Himalaya	43
3.5.1 Liddar Valley (Pir Panjal Range)	45
3.5.2 Naradu Glacier Valley (Dhauladhar Range)	47

3.6	Meteorological Analyses of Naradu Glacier Valley	49
3.6.1	Temperature	49
3.6.2	Precipitation	51
3.6.3	Solar Radiation	52
3.6.4	Sunshine Hours	52
3.6.5	Wind	53
3.7	West Himalaya	53
3.7.1	Climate Characteristics of Ladakh (Leh-Nubra-Kargil-Drass-Suru-Zaskar) Region	54
3.7.2	Wind	57
3.7.3	Analyses of Temporal Temperature Change at Drass	60
3.7.4	Precipitation	61
3.8	Summary	62
4	Glacier Geometry and Dynamics	65
4.1	Natural Determinants of Glaciers	68
4.1.1	Elevation	69
4.1.2	Aspect	70
4.1.3	Debris Cover	71
4.1.4	Hypsometry	73
4.1.5	Slope	74
4.2	Pattern and Extent of Existing Glaciers	74
4.3	Northwest Himalayan Glaciers	76
4.3.1	Liddar Valley Glaciers: Kashmir Himalaya	76
4.3.2	Baspa Valley Glaciers: Kinnaur Himalaya	77
4.4	West Himalayan Glaciers	81
4.4.1	Drass Sub-basin Glaciers	81
4.4.2	Long-Term Monitoring of Glaciers	83
4.4.3	Relative Change in Snout Position of Large-Sized Glaciers	84
4.4.4	Steady-State Phase in Area and Snout Position of Glaciers	85
4.5	Suru-Zaskar Valley	85
4.5.1	Long-Term Monitoring of Glaciers	90
4.5.2	Short-Term Monitoring and Current Behaviour of Glaciers	91
4.6	Mass Balance Studies	91
4.7	Shyok-Nubra Valley Glaciers	97
4.7.1	Short-Term Monitoring of Glaciers	99
4.7.2	Long-Term Monitoring of Glaciers	99
4.8	Summary	100

5	Glacial Landforms of Northwest Himalaya—Process and Origin	103
5.1	Morphology of Glacier	105
5.2	The Processes	107
5.2.1	Glacier Erosion Process	107
5.2.2	Glacier Transport Process	109
5.2.3	Glacier Deposition Process	111
5.3	Glacier Geomorphology and Landforms	113
5.3.1	Liddar Glacier Valley	114
5.3.2	Baspa Glacier Valley	116
5.3.3	Durung Drung Glacier Valley	118
5.3.4	Machoi Glacier Valley	120
5.3.5	Siachen Glacier Valley	122
5.3.6	Kangriz Glacier Valley	124
6	Mountain Geo-Hazards of NW Himalaya	127
6.1	Lake Outburst Flood Hazards	130
6.1.1	Glacial Lake Outburst Flood (GLOF) Hazards	130
6.1.2	Landslide Lake Outburst Flood (LLOF) Hazards	136
6.2	Landslide Hazards	138
6.3	Earthquake Induced Hazards	139
6.4	Snow Avalanche Hazards	142
6.5	Forest Fire Hazards	144
7	Climate Change vis-à-vis Human Livelihood and Agriculture in NW Himalaya	147
7.1	Culture, Lifestyle and Household—A Case Study of Ladakh Region	148
7.2	Mountain Agriculture, Climate and Diversification	150
7.3	Mountain Land Use Change and Climate	160
7.4	Climate Change and Mountain Socio-Economy	161
7.5	Mountain Ecosystem and Future	164
