

Former Places of Execution in Silesia

An Interdisciplinary Perspective

Daniel Wojtucki, Editor

Wrocław 2024

Contents

Daniel Wojtucki

Introduction	11
------------------------	----

Chapter 1

Daniel Wojtucki

Places of execution in Silesia
from the 16th to mid-19th century.

Typology, topography, and use.

Overview	19
1.1. Typology	19
1.2. Gallows topography and uses	36
1.3. Building and repairing the gallows	55
1.4. <i>Rabenstein</i> or <i>Köpfstätt</i> – the masonry scaffold	74

Chapter 2

Daniel Wojtucki

Archaeology of execution sites in Lower Silesia.

Overview of sites investigated in 1998–2016	81
2.1. Jelenia Góra I	85
2.2. Jelenia Góra II	94
2.3. Kamienna Góra	100
2.4. Kały Wrocławskie	108
2.5. Lubań	113
2.6. Lubomierz	120
2.7. Miłków	126
2.8. Modrzewie	143

2.9. Złotoryja	146
2.10. Złoty Stok	154

Chapter 3

Daniel Wojtucki, Karolina Wojtucka,
Bartosz Świątkowski, Dominika Leśniewska

Sites investigated by non-destructive techniques of prospection and test-pitting	163
3.1 Dzierżoniów	165
3.2. Głogówek	175
3.3. Gorzanów (Mielnik)	183
3.4. Kowary	188
3.5. Lubawka	193
3.6. Mierczyce	199
3.7. Mieroszów	206
3.8. Prudnik	213
3.9. Radków	220
3.10. Raszków	225
3.11. Ziębice	230

Chapter 4

Daniel Wojtucki, Karolina Wojtucka,
Bartosz Świątkowski, Dominika Leśniewska

The gallows in Żagań – evidence from historical and archaeological research	239
4.1. History of the execution site in Żagań	239
4.2. Archaeological Research	262
4.3. Fortified Residence on the <i>Motte</i>	264
4.4. Execution Site	270
4.5. Execution Cemetery	279
4.6. Suicide Cemetery	283
4.7. Artefacts	290
4.7.1. Late Medieval Pottery	301
4.7.2. Early Modern Pottery	302
Annex 1	313

Chapter 5

Natalia Mucha

Anthropological Analysis of Human Remains from the Execution Place in Żagań	317
--	-----

Chapter 6

Daniel Wojtucki, Karolina Wojtucka, Bartosz Świątkowski

The gallows in Chełmsko Śląskie – evidence from historical and archeological research	365
6.1. History of the execution site in Chełmsko Śląskie	365
6.2. Surface survey and non-destructive studies	378
6.2.1. Resistivity	380
6.2.2. Magnetic gradiometry	381
6.3. Test-pitting	382
6.4. Archaeological excavation	383
6.5. Artefacts	395
Annex 1	399
Annex 2	401

Chapter 7

Daniel Wojtucki, Karolina Wojtucka,
Bartosz Świątkowski, Dominika Leśniewska

Archaeological investigation of the gallows in Wojcieszów	403
7.1. History of the execution site in Wojcieszów	403
7.2. Archaeological research	408
Annex 1	421

Chapter 8

Daniel Wojtucki

From the history of executioners in Żagań and Chełmsko Śląskie in the 16th–18th centuries	423
8.1. Executioner's trade in Żagań	423
Executioners in Żagań, 16th to first half of 19th century	431
8.2. Executioner's trade in Chełmsko Śląskie	431
Executioners in Chełmsko Śląskie in the 18th century	435

Chapter 9

Wioleta Porębna, Daniel Wojtucki

Gallows in 18th-century landscape – GIS-based quantitative approach	437
9.1. Introduction	437
9.2. Historical maps as a data source	438
9.2.1. Historical maps – an overview	438

9.2.2. The quality of historical maps from the point of view of GIS applications	439
9.2.3. The gallows on historical maps	440
9.3. Identifying gallows sites	441
9.3.1. Registration of historical maps	441
9.3.2. Locating the gallows	445
9.4. Spatial analysis – the visibility maps	445
9.4.1. Making the visibility map	445
9.4.2. Lwówek Śląski	447
9.4.3. Strzegom	450
9.4.4. Brzeg	452
9.4.5. Nysa	455
9.4.6. Krnov	457
9.4.7. Opava	458
9.5. Conclusions	461
 List of abbreviations	 465
Bibliography	467
List of illustrations and maps	501
List of tables, figures and graphs	525
Index of place names	529
Zusammenfassung	535
Resumé	541

List of illustrations and maps

1. Gallows with two masonry pillars (Münzenberg, Germany). Photo D. Wojtucki.	20
2. Gallows with two masonry pillars (Unterzeiring, Austria). With traces of archaeological fieldwork. Photo D. Wojtucki.	20
3. Gallows with three masonry pillars (Mariahof, Austria). Photo D. Wojtucki.	21
4. Gallows, originally with four pillars, of which three survive today (Wilhelmsburg, Austria). Photo D. Wojtucki.	21
5. Gallows with three pillars placed directly on the ground, surrounded by a low stone wall (Murau, Austria). Photo D. Wojtucki.	22
6. A simple <i>Kniegälgen</i> gallows in front of the Lower Gate in Świdnica. Fragment of 17th-century panorama of the town. Source: Moravská zemská knihovna v Brně, Mapová sbírka B.P. Molla, Atlas Austriacus, tomus XXIII. Silesia., 17.–18. století.	24
7. Derelict gallows between <i>Gaiki</i> and <i>Jerzmanowa</i> marked on the Ludwig Wilhelm von Regler map. Source: collection of SBBK, ref. IIIC, Kart. N 15140, sheet No. 28.	24
8. Gallows with a cylindrical sub-structure – a reconstruction. Drawing R. Heś.	26
9. A ceramic model of a cylindrical gallows with three pillars – speculative reconstruction (author, Leszek Róžański). Source: the Karolina and Daniel Wojtucki collection.	26
10. Gallows with a rectangular sub-structure – a reconstruction. Drawing R. Heś.	28
11. Reconstruction of a gallows based on the surviving documentation from Olomouc. Photo D. Wojtucki.	28

12. Drawing of the gallows in Lwówek Śląski showing the entrance to the interior placed at an unusual height. Source: BUWr., MS (ref. Akc. 1949/35, f. 8a). 29
13. Execution chain and staples recovered on the gallows site in Żagań. Photo B. Świątkowski. 30
14. Execution chain: its length suggests its use was to attach the body of the executed to the gallows crossbeam. Photo B. Świątkowski. 32
15. Outer beam of the gallows in Świdnica. Wien Museum (ref. 198836). ... 33
16. A fragment of the panorama of Głogów showing the gallows (in the foreground) with a superstructure added above the regular execution beams. Based on a drawing of Friedrich Bernhard Werner, *Scenographia Urbium Silesiae, Norimbergae* [1737–1752], Plate IX. Source: BUWr., EP, ref. 595029. 34
17. Wooden gallows with a superstructure added above the regular crossbeam (Aarhus Cathedral, Denmark). Photo J. Zbroja. 35
18. Gallows in the village of Domanice near Wrocław marked on a manuscript map from the military operations of 1762. Source: Österreichisches Staatsarchiv, Abteilung Kriegsarchiv, ref. H III e 2435. Photo D. Wojtucki. 37
19. Reference in the chronicle of Jelenia Góra to the construction in 1771 of a gallows and pillory at the nearby village of Łomnica. Source: APWr., Jelenia Góra branch, Akta miasta Jeleniej Góry, ref. 3598, f. 70. Photo D. Wojtucki. 38
20. Plan of the former execution site in Niemcza showing the location of the masonry gallows and the area used to dispose of carrion. Source: APWr., Kamieniec Ząbkowicki branch, Akta miasta Niemczy, ref. 470. Photo D. Wojtucki. 41
21. Demolishing the gallows – a symbol of jurisdictional sovereignty. Source: Mittelalterliche Kriminalmuseum Rothenburg ob der Tauber. Photo D. Wojtucki. 43
22. Two gallows erected on opposite hills at Raszków near Kamienna Góra. Source: *Das Fürstenthum Schweidnitz, oder der Striegauische, Bolckenhayn-Landshutsche, Schweidnitzsche und Reichenbachsche Kreis* (public domain). 46
23. A *Zigeunergalgen* (Gypsy gallows) put up at Jeseník across the border with Silesia. Source: ZAO, pobočka Olomouc, fond Velkostatek Velké Losiny, inv. č. 17, kniha č. 3. Photo J. Štěpán. 48

List of tables, plates and graphs

Tables

1. Executions carried out in Dzierżoniów in the 16th–18th centuries	166
2. Staples Excavated on the Execution Site in Żagań	292
3. Executions carried out in Żagań in the 15th–18th centuries	313
4. Cemetery populations used in the comparison of cranial parameters.	338
5. Average values obtained from skull series from Poland, Germany, Czech Republic, and Żagań.	343
6. Mean body height of individuals buried in Żagań and other sites.	344
7. Bones with evidence of periosteal inflammatory reaction (PIR) graded using scores in Datacode; N – number of bones, L – left side, P – right side	354
8. Stable carbon ($\delta^{13}\text{C}$) and nitrogen ($\delta^{15}\text{N}$) isotope content.	360
9. Stable carbon and nitrogen isotope content in animal samples.	361
10. Rulings on criminal cases issued by the Court of Appeal in Prague for the law court in Chełmsko Śląskie in the 17th and first half of the 18th centuries	375
11. Executions carried out in Chełmsko Śląskie in the 16th–18th centuries.	401
12. Executions carried out in Wojcieszów in the 17th century	421

Plates

1. Żagań, selected metal finds. 1 – execution chain, 2–4 – staples,
5 – horseshoe, 6–8 nails, 9 – hook, 10 – crossbow bolt,
11 – fragment of chain mail, 12–13 – keys, 14–15 – buttons,
16 – pendant cross, 17 – fish hook (photo. A. Adamaszek). 305
2. Żagań, selected metal finds. 1–6 – staples, 7 – crossbow bolt,
8 – hook, 9 – nail (photo. A. Adamaszek). 306
3. Żagań, selected metal finds. 1 – undetermined object, 2–5 staples,
6–9 nails (photo. A. Adamaszek). 307
4. Żagań, 1 – trench 1 at 132.67–133.37 m ASL (drawing and digitalization –
M. Majorek), 2 – trench 1 at 132.62–133.37 m ASL (drawing –
K. Wiliński and P. Krakowska; digitalization – M. Majorek),
3 – W section of trenches 2 and 2C (drawing
and digitalization – M. Majorek). 308
5. Żagań, 1 – trench 2 at 132.64–133.32 m ASL, 2 – trench 2 at
132.75–133.32 m ASL (drawing and digitalization
– M. Majorek). 309
6. Żagań, 1 – plan of trench 2 at 132.48–133.32 m ASL, 2 – plan of
trench 2 at 132.25–133.32 m ASL (drawing and digitalization
– M. Majorek). 310
7. Żagań, 1 – trench 1A, E section, 2 – trench 1A, S section,
3 – trench 1A, W section, 4 – trench 1A, N section,
5 – trench 2E, N section, 6 – trench 2A, W section,
7 – trench 2A, E section, 8 – trench 1, S section (drawing
and digitalization – M. Majorek). 311
8. Żagań, 1 – plan of trench 5 at 132.11–132.67 m ASL, 2 – plan of
trench 5 (with extended N area) at 132.62–132.79 m ASL,
3 – trench 5A, N section, 4 – trench 5A, E section (drawing
and digitalization – M. Majorek). 312
9. Chełmsko Śląskie, 1 – plan of trench 1, 2 – general layout of test-pits
(drawing and digitalization – M. Majorek). 396
10. Former execution sites in Silesia investigated archaeologically
in 1998–2022. Prep. I. Vokáč. 462

Graphs

1. Comparison of body height of historical populations from Poland.	346
2. Ratio of stable carbon $\delta^{13}\text{C}$ and nitrogen $\delta^{15}\text{N}$ isotopes in human bone samples from Żagań.	362
3. Stable carbon and nitrogen isotopes in samples from Żagań versus data obtained for other sites in Poland (courtesy of dr Laurie Reitsema from the University of Georgia).	362
