

Now we're standing face to face  
 And we both know  
 That no one's gonna win this race  
 As we're waiting in the hall  
 Here we both know we know no one at all

But the marks deep in the trees  
 Are some evidence of peace  
 Cause we felt the truth  
 As we scratched our names  
 And the warmth we tried to save  
 In these bubbles we would chase  
 Was a promise with no ending

And how would you feel  
 If we were strangers nowadays  
 And how would it be  
 If we had no history

And now we're caught in the same place  
 And we both know  
 There is no plan to leave this maze  
 Trembling in your grandmas coat  
 Both waiting for our surnames to get called

## ST. ALKER

I always understood you  
 In every mess you've made  
 The strains under your carpet  
 I know each one by name

From afar see you walking home alone  
 You don't know it but you're never on your own  
 And the scars deep in the trees  
 Are some evidence of peace  
 Cause we felt the truth  
 While we scratched our names  
 And the light we tried to save  
 In these desperate words we gave  
 Is a black hole with no ending

You enter your apartment  
 Plug in to see your show  
 I see you check the curtains  
 The fourth time in a row  
 And how would I feel  
 If we were strangers nowadays  
 And how would it be  
 If we had no history

Now you remove your make up  
 To see the truth behind  
 The wrinkles in the night light  
 I know the tales behind  
 And how would we feel  
 If we were strangers nowadays  
 And how could it be  
 If we had no history

From afar I see you dreaming all alone  
 I won't show it but you're never on your own

Don't say you're lonely  
 If you don't even know me  
 I'm not on your mind  
 But that is alright

I feel you it's not easy  
 To be close but far away  
 It's not easy, for me either  
 To ignore your lonesome grace

You're wrong  
 I know that you've been told to play  
 Don't say you're lonely  
 But deep inside you want to stay  
 If you don't even know me  
 You're wrong  
 I'm not on your mind  
 The freedom you defined yourself  
 But that is alright  
 Becomes a torture in the end

Please don't say you're lonely  
 If you don't see me holding  
 On to your smile  
 So maybe you're blind

## NACHTLIECHT

Ich zünds Nachtliecht a  
 Und mache d'Auge zue zum ändlech weder gseh  
 Schwemm devo id Stadt vo de versunkne Tröim  
 Wenn alli tuf am schlofe send

Ond ech legg d'Häntsche a  
 Ond renn devo id Wälder vo de gfällte Bäum  
 Denn trölli jedes Blatt ond jede Ascht  
 Ond das machi so lang bes mer nöimme trömmilig esch

## WRONG

The blankets are used  
 The time to drift just stopped  
 You start being confused  
 The kisses you gave  
 Have dried up all about  
 And left you with a doubt

Old memories  
 Are slowly released  
 You find out what freedom has done to you

Sweet memories  
 They challenge your skills  
 You realize what strange love has done to you

Wrong  
 I know that you've been blown away  
 By all the freedom of a stray

You're wrong  
 The freedom you defined yourself  
 Becomes a torture in the end

Your lipstick ran out  
 Your conscience got too loud  
 You're lost in dusty clouds  
 The loving you gave  
 Is swallowed all about  
 And left you with a doubt

All memories  
 Are slowly released  
 You find out what freedom has done to you

Sweet memories  
 Cause doubt in your skills  
 You realize what strange love has done to you

## AQUATIC BALLET

Sweet regret in the air we breathe  
Drowned in fears of a million matches  
Tears still running standing in the line  
Heartache's humming and still I can't deny

That I  
Would cross the crowded seas  
Till I  
Was washed up at your feet

Rainy days in the summer of love  
A thousand souls in the spot of attraction  
Memories hunting  
And keeping you alive  
Heartache's numbing  
But still I can't deny

That I  
Would cross the crowded seas  
Till I  
Was washed up at your feet  
Oh I  
Would cross the crowded seas  
Cause I  
Still hold on to a dream

I am not the only one you drowned in the waves  
But I am ready to join  
Aquatic ballet

And I  
Would cross the crowded seas  
Till I  
Was washed up at your feet

Mach en Spaziergang met mim Ech bessis plötzlech nömmen fend  
S'hed sech verchroche zu dem Chind wo i mer enn Versteckis spillt  
Ech schwäbe witer ohni Grund  
Versuech s'ech z'sueche Stund um Stund  
Die Woche türmed sech zu Jahresrende im Gedankeschlund

Angscht  
Vorallem hani Angscht  
Dass ech mech werklech nie meh fend ond wenni do be beni blind  
Vor allem hani Angscht

Vorallem hani Angscht  
Dass öppis brecht wo nie meh chläbt  
Ned met Schnellim ned met Ziit  
Aber vor allem hani Angscht  
Vorallem hani Angscht

Die Belder vo dem tolle Ech i dene hundert schöne Chöpf  
Vo allne Lüt wo mech zwar ghöred  
Doch ned losed wasi wett  
Ech ha mech sälber no nie troffe ond wäg dem glaubi a Beschreb  
Wo mer die Lüt z'erföle gänd  
Sosch war mis Ech ja gar ned ech  
Ond ech ha Angscht

Vorallem hani Angscht  
Dass öppis brecht wo nie meh chläbt  
Ned met Schnellim ned met Ziit  
Aber vorallem hani Angscht

Vor allem hani Angscht  
Dass ech mech werklech nie meh fend  
Ond wenni do be beni blind  
Aber vorallem hani Angscht  
Vor allem hani Angscht

Es Urteil öber mech han ech mer sälber no nie gfällt  
Und trotzdem ston ech sprochen do und lueg uf all die gfällte Wälder  
Ond ech trou mech ned z'bewege i dem perfekte Bluemegsteck  
Wel susch chönnt es Sömli spriesse wo sech för s'Ech wedersetzt

Angscht  
Vorallem hani Angscht  
Dass öppis brecht wo nie meh chläbt  
Ned met Schnellim ned met Ziit  
Aber vorallem hani Angscht

Vor allem hani Angscht  
Dass ech mech werklech nie meh fend  
Ond wenni do be beni blind  
Aber vorallem hani Angscht

## MELODY

In an other mind I'd interfere  
In an other mind

In an other mind I'd spark ideas  
In an other mind  
With an other lead I could retreat  
To an other mind

I live like a melody  
Stuck in heads but lost by night  
I know you'll get rid of me  
I'm too quiet to stay alive

In a perfect world  
You would nurse me till I'm gone  
I'm like a song  
Not a thing you act upon

I live like a melody  
Stuck in heads but lost by night  
I know you'll get rid of me  
I'm too quiet to stay alive

Captured in reality  
I'm the knowledge in each lie  
You fail to get rid of me  
I'm the hunch you can't deny

Uhhh

Captured in reality  
I'm the knowledge in each lie  
And you fail to get rid of me  
I'm the hunch you can't deny

I live like a melody  
Stuck in heads but lost by night  
I know you'll get rid of me  
I'm too quiet to stay alive

## NACHTLIECHT II

Ich zünds Nachtliecht a  
Und mache d'Auge zu zum ändlech weder gseh  
Schwemm devo id Stadt vo de versunkne Tröim  
Wenn alli tuf am schlofe send

Ond mech triibts devo  
Zum öppis fende woni sälber nömmen könn  
Verbi am Bronne vo de tusig Wönsch  
Wo alli det vertronke send

Ond ech wösst so gärn  
Jede Grund werom mer amigs trurig send  
Denn mösst Ech niemeh flöchte ine tröimti Stadt  
Ech wösst so gärn
